DEPARTMENT OF FINANCE,
Ottawa, November 1, 1961.

The Honourable Donald M. Fleming,
Minister of Finance,
Ottawa, Canada.

Sir:

I have the honour to submit the Public Accounts of the Government of Canada for the fiscal year ended March 31, 1961.

Section 64 of the Financial Administration Act provides:

"(1) An annual report, called the Public Accounts, shall be laid before the House of Commons by the Minister on or before the thirty-first day of December or, if Parliament is then not in session, within fifteen days after the commencement of the next ensuing session thereof.

(2) The Public Accounts shall be in such form as the Minister may direct, and shall include:

- (a) a report on the financial transactions of the fiscal year;
- (b) a statement, certified by the Auditor General, of the expenditures and revenues of Canada for the fiscal year;
- (c) a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year;
- (d) the contingent liabilities of Canada; and
- (e) such other accounts and information as are necessary to show, with respect to the fiscal year, the financial transactions and financial position of Canada, or are required by any Act to be shown in the Public Accounts."

The Standing Committee on Public Accounts in its second report to the House of Commons on April 19, 1961, presented its recommendations in regard to the form and content of the Public Accounts as follows:

"9. Your Committee recommends that Volume I of the Public Accounts be divided into two volumes in future, the first to contain mainly the summary report and financial statements, and the second mainly details of expenditures and revenues. These two volumes would then comprise:

Volume I

- (1) A summary report on the financial transactions of the fiscal year and the financial position at the year-end, together with various appendices.
- (2) A statement of expenditure and revenue, signed by the Comptroller of the Treasury and certified by the Auditor General.
- (3) A summarized statement of appropriations and expenditures, by departments, signed by the Comptroller of the Treasury and certified by the Auditor General, followed by departmental summaries of appropriations and expenditures, in the format used in the Main Estimates.
- (4) A summarized statement of expenditure, by departments, classified by standard object headings.
- (5) A summarized statement of revenues, by departments, classified by main sources, signed by the Comptroller of the Treasury and certified by the Auditor General.
- (6) A statement of assets and liabilities, signed by the Comptroller of the Treasury and certified by the Auditor General, followed by supporting schedules and supplementary explanatory notes.

Volume II

(1) Departmental sections, each containing:

- (i) a summary of allotments and expenditures under each vote by standard object of expenditure headings, with explanatory notes and other material;
- (ii) a summary of revenues, with supporting details and explanatory notes;
- (iii) a summary of accounts receivable; and
- (iv) appendices relating to departmental operating activities, etc.

(2) Miscellaneous statements, as follows:

- (i) statutory statements (required by various sections of the Financial Administration Act);
- (ii) listing of salary rates (above the established minimum amount) in effect at the year-end, by departments; and
- (iii) listing of payments to suppliers and contractors (above the established minimum amount) during the year, by departments.

The present Volume II, which contains the financial statements of the Crown Corporations and the audit reports thereon, would then become Volume III.

Your Committee feels that were the foregoing form of presentation followed, Volume I would give an effective over-all financial summary on a broad basis, with Volumes II and III being available to persons who are interested in the more detailed or specialized information that they would contain. In this connection, the Committee is of the opinion that the importance of the financial statements of Crown Corporations justifies their being presented in Volume III, notwithstanding the fact that they are to be found also in the separate annual reports of the corporations concerned. The Committee suggests that, in order to encourage a wide distribution of Volume I, in particular, a separate price should be assigned to each of the three volumes.

10. Your Committee recommends that the following additional information be included in the explanatory notes following the summary of allotments and expenditure for each vote, in the departmental sections of Volume II:

- (i) Explanation of the cause of the variation, if significant, between the appropriation and the total of expenditures charged thereto.
- (ii) Reference to any ex-gratia payment in excess of \$100 entered as a charge to the vote."

The Committee's report was concurred in by the House of Commons on April 26, 1961.

In accordance with the recommendations of the Standing Committee on Public Accounts the report required by the statute is presented in three volumes:

Volume I—A survey of the transactions of the fiscal year, together with statements, certified by the Auditor General, of the revenues and expenditures for the fiscal year ended March 31, 1961, and of the assets and liabilities of Canada as at March 31, 1961, together with a statement of the contingent liabilities, departmental summaries of appropriations and expenditures, and various other supporting schedules, explanatory notes, statements and appendices.

Volume II—Details of revenue and expenditure by departments together with certain statements required by the Financial Administration Act to be published in the Public Accounts.

Volume III—The financial statements of all Crown Corporations and the auditors' reports thereon.

Respectfully submitted,

K. W. TAYLOR,
Deputy Minister of Finance.

Budgetary transactions

The revenues, expenditures and deficit as forecast in the budget speech of March 31, 1960 and revised on December 20, 1960 and the actual figures for the fiscal year 1960-61 are shown in the following table:

TABLE 2
(in millions of dollars)

| Fiscal Year 1960-61 | Budget forecast March 31, 1960 | Revised forecast December 20, 1960 | Actual 1960-61 | Increase or decrease (—) compared with December 20, 1960 forecast | |

Revenues

The revenues of the government for the fiscal year ended March 31, 1961, amounted to \$5,618 million. This is \$76 million or about one per cent less than the total of \$5,694 million forecast in the supplementary budget of December 20, 1960, and \$328 million or 6 per cent more than the total of \$5,290 million collected in 1959-60.

The sharp drop in revenues from the December forecast was due largely to an unexpected drop in March receipts. This was caused chiefly by the incidence of the Easter week-end. This year March 31 was Good Friday, and a considerable proportion of tax payments that

are usually received on or before the last day of the month were in fact not mailed until April 3 or 4 and, therefore, could not be credited to the 1960-61 fiscal year receipts. As a result, the March revenues were about \$40 million below normal and the 1960-61 budgetary deficit was increased by the same amount.

Of the increase of \$328 million over 1959-60 revenues, \$264 million was due to tax revenue and \$64 million to non-tax revenue. Higher income tax collections accounted for nearly all of the increase in tax revenue. Personal income tax receipts were \$145 million more than in the preceding year, reflecting the higher level of incomes during the year and the yield for a full year of the increase in tax rates that became effective July 1, 1959. Corporation income tax collections were \$134 million higher, notwithstanding the fact that 1960 profits were lower than in 1959, reflecting the collection in the fiscal year of substantial amounts for taxes on 1959 profits and also the effect for a full year of the rate increase effective January 1, 1959.

The increase of \$64 million in non-tax revenue was due principally to an increase of \$44 million in return on investments.

BUDGETARY REVENUES AND EXPENDITURES

Fiscal Years Ended March 31
Millions of Dollars

Expenditures

Government expenditures amounted to \$5,958 million and were two-fifths of one per cent less than forecast on December 20, 1960, and \$255 million or about 5 per cent more than total expenditures in 1959-60.

Expenditures for defence again constituted the largest item, amounting to \$1,538 million or 26 per cent of the total expenditures, compared with \$1,534 million or 27 per cent in 1959-60.

Civil or non-defence expenditures amounted to \$4,420 million, an increase of \$251 million over the corresponding total for the previous fiscal year. There were increases of \$71 million in expenditures of the Department of National Health and Welfare (including an increase of \$39 million in the government's contributions under the Hospital Insurance and Diagnostic

Services Act), \$40 million in the expenditures of the Department of Finance (including \$19 million for increased payments to the provinces and \$14 million for higher public debt charges), \$40 million in expenditures of the Department of Transport (including \$24 million for the increase in the deficit of the Canadian National Railways), and \$38 million in expenditures of the Department of Agriculture (more than accounted for by payments of \$41 million to western grain producers).

More detailed explanations of budgetary revenues by source and budgetary expenditures by classification and department are given in the budgetary accounts section of this volume.

Deficit

The deficit for the fiscal year 1960-61 was \$340 million compared with \$286 million as forecast on December 20, 1960, and the deficit of \$413 million in 1959-60.

Non-budgetary transactions

A net amount of \$46 million was available during the fiscal year from non-budgetary transactions (excluding unmatured debt transactions). Non-budgetary disbursements and charges totalled \$653 million. Sums totalling \$484 million were required for loans, investments and working capital advances, and \$169 million for other non-budgetary purposes. On the other hand, a total of \$699 million was available from various non-budgetary receipts and credits. Of this amount, \$212 million was available from the repayment of loans, investments and working capital advances, \$395 million from the net receipts from various government annuity, insurance and pension accounts, and \$92 million from other non-budgetary sources.

Old age security fund

During 1960-61 pension payments from the old age security fund totalled \$592 million and tax receipts credited to the fund amounted to \$603 million. The excess of \$11 million of receipts over payments was applied to reduce the temporary loans made by the Minister of Finance to the fund. Loans outstanding amounted to \$28 million as at March 31, 1960, and \$17 million as at March 31, 1961.

The transactions in the account during 1960-61 compared with those for the previous fiscal year were as follows:

| | Fiscal year ended March 31 | |
|--|----------------------------|-------|
| | 1961 | 1960 |
| | (in millions of dollars) | |
| Pension payments | 592 | 575 |
| Tax receipts | 603 | 547 |
| | <hr/> | <hr/> |
| Excess of receipts over payments applied to the repayment of temporary loans from the Minister of Finance, or excess of payments over receipts (—) covered by temporary loans from the Minister of Finance | 11 | —28 |
| | <hr/> | <hr/> |
| Temporary loans outstanding at the fiscal year-end | 17 | 28 |
| | <hr/> | <hr/> |

Debt transactions

During 1960-61 the government issued securities amounting to \$2,531 million (excluding the refunding of treasury bills which mature weekly) and redeemed or converted issues in the amount of \$2,353 million, resulting in an increase of \$178 million in unmatured debt. As other liabilities increased by \$439 million, the government's gross public debt increased by \$617 million to \$21,603 million at March 31, 1961. During the same period the government's net assets increased by \$269 million to \$9,166 million. As a result, the government's net debt at March 31, 1961, was \$12,437 million compared with \$12,089 million at March 31, 1960. The increase of \$348 million reflected the budgetary deficit of \$340 million plus an adjustment of \$8 million in respect of prior years' transactions.

Cash position

Receiver General balances were \$71 million less at the end of the fiscal year than they were at the beginning. The budgetary deficit of \$340 million was financed by the net amount of \$46 million available from non-budgetary transactions, the increase of \$223 million in unmatured debt outstanding in the hands of the public (after taking into account transactions in the securities investment account and the sinking fund account) and the decrease of \$71 million in cash balances.

3. THE GOVERNMENT'S ACCOUNTING SYSTEM

To assist the reader who is not familiar with the government's financial statements and general system of accounting, a brief outline of some of the more significant features of these and particularly of those aspects which differ from normal commercial accounting practices is given in the paragraphs which follow.

There are two generally accepted bases or systems of accounting. One is the "cash" basis under which revenues are taken into the accounts in the period in which they are received in cash and expenditures are accounted for when the actual disbursements are made; the other is the "accrual" basis under which revenues are accounted for when earned or due, even though not collected and expenditures are accounted for when the liabilities are incurred whether payment is made in that accounting period or not.

Many factors must be considered in determining how the government's voluminous and varied transactions should be recorded and brought into focus in a clear and comprehensive way. In business, the accounts are usually maintained on an accrual basis. However, the prime purpose of government accounting is to serve the requirements of Parliament and more particularly to ensure effective control by Parliament over public moneys. As parliamentary control in Canada is predicated on the operation of the Consolidated Revenue Fund, which is by law a cash account, and on regulating the flow of cash receipts into and cash payments out of the Fund, it follows that the accounts of Canada are maintained basically on a cash system. However, there is provision in the Financial Administration Act for bringing into the accounts of each fiscal year expenditures relating to that year, which on a pure cash basis would be excluded, and in addition certain modifications have been made to facilitate the maintenance of accounting control over certain assets and liabilities, and to provide for valuation adjustments for recorded assets in anticipation of possible losses on ultimate realization.

Revenues and expenditures

Revenues are reported on a cash basis and consequently taxes assessed and due and other revenues receivable or accrued (including interest accrued) are not normally set up as assets on the government's statement of assets and liabilities.

On the expenditure side, under the provisions of section 35 of the Financial Administration Act, for thirty days after the end of each fiscal year, payments for the discharge of debts properly applicable to the old year may be made and charged to that year. Consequently, liabilities under contracts and other accounts payable at March 31 for which cheques are issued during the month of April are charged as expenditures in the old year and appear as current liabilities on the statement of assets and liabilities. This is a significant modification of pure "cash" accounting, and brings into the year's transactions the greater part of those expenditures which on the cash basis would be excluded, but which on the accrual basis would be included and carried to the statement of assets and liabilities as accounts payable. In other respects the expenditure accounts reflect refinements of the cash basis. For example, discounts and commission on loans are not charged to expenditures in the year in which they are paid, but are set up as deferred charges on the statement of assets and liabilities and are amortized or written off to expenditures during the period of the loan. Also, losses on loans and advances and on other assets are not generally charged to expenditures in the year in which the loss is sustained; instead provision has been made from time to time for a reserve for possible losses on the realization of assets to which the ultimate loss when determined may be charged by parliamentary authority.

Prior to 1951-52, it was the practice to charge interest on the public debt as it became due rather than when it was paid. This was a modification of the strict cash basis of accounting, but in 1951-52 a further modification was made whereby the charges to budgetary expenditures for interest on the public debt were made month by month as the interest accrued rather than annually or semi-annually as it became due and payable. This change is in line with the aim previously mentioned of bringing into the accounts of the year all the expenditures relating to that year. No comparable change in the treatment of interest receivable was made as it was not considered appropriate to accrue interest receivable which might or might not be received or to take it into account in determining the revenues for the year before it was actually received.

These examples will serve to indicate that while revenues are reported on a cash basis, in expenditure reporting significant modifications have been made in the cash basis to achieve many of the advantages which accrual accounting would produce. The practice is essentially conservative in that on the one hand the budgetary liabilities are set up or are otherwise taken into the accounts for the year, and on the other, tax and other revenue assessments, interest accruals (with certain exceptions) and accounts receivable are not treated as assets or taken into revenue until collected.

Assets and liabilities

Section 64 of the Financial Administration Act directs that the Public Accounts of Canada shall include:

"a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year."

The assets and liabilities of Canada are set out so as to disclose the amount of the net debt. In 1920, the practice was established of offsetting against the gross liabilities only what were designated as "active" assets in determining the net debt. In the budget speech of May 18, 1920, the following explanation was given by the Minister of Finance:

"Assets which are not readily convertible, as the reserve is convertible, or are not interest producing, are not such assets as ought to be deducted from the gross debt. They are inactive, they are items of such a character as might well be placed in a suspense account. At any rate, whatever may be their future value, however great it may be, they are not assets of such a character as to directly reduce the gross debt any more than the other capital accounts of the country ought to be deducted from it."

Since that time, there has been no fundamental change in the basic structure of the statement or in its main purpose. However, revisions have been made from time to time to improve the form or manner of presentation, and it is believed that to a substantial degree the present statement fulfils the original intention, with consideration being given continually to the possibility of further improvements.

With certain exceptions, taxes and revenues receivable, revenue and other asset accruals and inventories of materials, supplies and equipment are not recorded as assets (except when these are held as charges against working capital accounts or revolving funds) nor are public works and buildings or other fixed or capital assets. Following the principle that only realizable or interest- or revenue-producing assets should be offset against the gross liabilities, costs of capital works are charged to expenditures at the time of acquisition or construction. Consequently government buildings, public works, national monuments, military assets (such as aircraft, naval vessels, and army equipment) and other capital works and equipment are recorded on the statement of assets and liabilities at a nominal value of \$1 as the value is not considered as a proper offset to the gross liabilities in determining the net debt of Canada.

On the liabilities side, accrued liabilities (except for interest accrued on the public debt) are not taken into account in determining the obligations of the Government. However, under section 35 of the Financial Administration Act, liabilities under contracts and other accounts payable at March 31 if paid on or before April 30 may be charged to the accounts for the year. These are recorded as accounts payable in the "Current and demand liabilities" schedule to the statement of assets and liabilities.

The *liabilities* of the government, as shown in the statement of assets and liabilities include:

- (1) unmatured debt, consisting of bonds and treasury bills;
- (2) current and demand liabilities, including matured debt outstanding, outstanding treasury cheques, interest due and outstanding, interest accrued, accounts payable, non-interest bearing notes payable to international organizations and other obligations payable on demand;
- (3) sundry funds deposited with the Receiver General of Canada or held in trust for various purposes;
- (4) amounts to the credit of various annuity, insurance and pension accounts;
- (5) undisbursed balances of appropriations to special accounts, which, in accordance with the legislation under which they are authorized, are available for expenditures in periods subsequent to the fiscal year in which they are granted;
- (6) amounts due to the government but in respect of which payment has been deferred; these are contra accounts to corresponding items under "Cash in blocked currency", "Loans to, and investments in, Crown corporations", "Loans to national governments" and "Other loans and investments"; and
- (7) suspense accounts, consisting of balances where some uncertainty as to disposition exists.

The *indirect or contingent liabilities* of the government are not reflected in the statement of assets and liabilities but are set out in a supplementary statement.

Offsetting the direct liabilities, and in a measure explaining their existence, as a substantial portion of the total debt is attributable to them, are the government's recorded *assets*. For the most part, these consist of assets which yield interest, profits or dividends, and very liquid assets such as cash and departmental working funds. The principal classes of assets are:

- (1) current assets, including cash, securities held for the securities investment account and departmental working capital advances and revolving funds;
- (2) advances to the exchange fund account for the acquisition of gold and foreign exchange;
- (3) sinking fund and other investments held for retirement of unmatured debt;
- (4) loans to, and investments in, Crown corporations;
- (5) loans to national governments;
- (6) other loans and investments, including loans to provincial and municipal governments, subscriptions to international organizations and a number of miscellaneous advances to veterans and others;
- (7) securities held in trust for various deposit and trust and annuity, insurance and pension accounts and bonds and certified cheques held in connection with contractors' security deposits;

- (8) deferred charges which consist of the unamortized portions of the actuarial deficiencies in the public service superannuation account and the Canadian forces superannuation account representing that portion of the government's liability in respect of these accounts that has not been charged to budgetary expenditure and discounts, commissions, redemption bonuses and conversion premiums on loan flotations remaining to be charged annually to expenditure;
- (9) suspense accounts;
- (10) capital assets, a category set up to cover capital assets that are charged to budgetary expenditure at the time of acquisition or construction and which are shown on the statement of assets and liabilities at a nominal value of \$1; and
- (11) inactive loans and investments which are not currently yielding interest, profits or dividends.

A reserve for losses on the realization of assets is not shown as a liability but is deducted from the total of the assets.

The excess of the gross liabilities over the recorded net assets is designated as the *net debt* and the transactions affecting it during the fiscal year are set out in a separate schedule to the statement of assets and liabilities. In effect, the net debt is the accumulated overall deficit since Confederation. Prior to the 1954-55 fiscal year it had been the practice to show it as represented by:

- (a) the non-active assets which consisted of expenditures on certain government-owned properties or public works designated as capital in the schedules to the appropriation acts which authorized the expenditures, and those loans and investments which were regarded currently as neither productive of revenue nor readily realizable; and
- (b) the balance of the consolidated deficit account which was the accumulation of the excess of expenditures over revenues since Confederation, exclusive of capital expenditures and other charges to the non-active accounts.

However, as the capital accounts included only those items paid from appropriations designated as capital in annual appropriation acts (and departmental practices varied in this respect), they were not an all-inclusive listing of capital expenditures. Moreover, the non-active schedules included many items of a nature similar to others which had been charged directly to the consolidated deficit account.

In 1954-55, a change was made in the manner of presentation; the classification of the net debt into capital and non-active accounts on the one hand and the consolidated deficit account on the other was dropped from the schedules to the statement of assets and liabilities, although for purposes of historical record a listing was shown as an appendix. In its place a schedule was presented showing the changes in the net debt during the fiscal year due to:

- (a) budgetary transactions; and
- (b) adjustments in respect of prior years' transactions.

The practice adopted in 1954-55 has been continued and the list of items charged to net debt is presented in Appendix No. 11 to this volume.

4. THE BUDGETARY ACCOUNTS

Total revenues amounting to \$5,618 million for 1960-61 were \$328 million more than the total for the previous year. Total expenditures were \$5,958 million, an increase of \$255 million over the total for 1959-60. The deficit for the fiscal year was \$340 million compared with \$413 million for the previous year.

As is shown by the preceding table there were month to month variations in both revenues and expenditures during 1960-61. However, it may be noted that although revenues are affected by changes in taxation rates, in the base on which taxes are calculated and in economic conditions generally, the system of paying personal and corporation income taxes on the instalment plan has resulted in a greater degree of continuity and stability in collections and, other things being equal, approximately one-half of the year's tax revenues is received during the first half of the fiscal year and the remainder during the second. During 1960-61, of total tax revenues for the year, about 51 per cent was received during the first six months and 49 per cent in the remainder of the fiscal year.

For expenditures, variation between the first and second halves of the year is usually somewhat more pronounced. Many construction contracts which are normally let in the early part of the year do not come up for payment until some months later, and deficits sustained by Crown corporations and losses incurred in the operation of various agencies and accounts are not known until the end or towards the end of the fiscal year. There is a further factor tending to make expenditures higher in the last half of the fiscal year. Under section 35 of the Financial Administration Act the government's books remain open after March 31 to record expenditures which, although they originate in and are attributable to the current fiscal year, are not actually paid until April, the first month of the following year. The effect of this procedure is that the greater part of an extra month's expenditure is carried back to the old year so that the second half of the fiscal year includes expenditures for approximately seven months and the first half for approximately five months.

In 1960-61 these factors resulted in expenditures in the latter part of the year being somewhat larger than in the early months of the year. As shown in the preceding table, of total expenditures for the year of \$5,958 million, \$2,699 million or about 45 per cent were made in the first six months and \$3,259 million or 55 per cent in the last six months. Moreover, while

BUDGETARY REVENUES BY MONTHS AND MAJOR SOURCES

\$5,106 million or 91 per cent of the revenues for the year had been collected up to the end of February, only \$5,136 million or 86 per cent of the expenditures had been made to that date, and the accumulated budgetary deficit of \$30 million at February 28, 1961 increased to \$340 million at the fiscal year-end.

While both revenues and expenditures varied from month to month, the monthly variations in some categories of revenues and expenditures were greater than in others as may be seen in the data presented in the next two tables.

The table which follows shows the major sources of budgetary revenues by months for the fiscal year 1960-61:

In considering the revenue table it should be noted that revenues in the hands of collectors and in transit on the thirty-first day of March in each fiscal year are treated as revenues of that fiscal year even though they are not deposited in the Receiver General's bank accounts until April. These amounts are shown in the table as receipts in the supplementary period.

As the preceding table indicates, receipts of personal income tax deducted at the source were considerably lower in the period April to June, 1960 and in March, 1961, than they were in other months. In the first three months of 1960-61, this was due largely to payments of refunds of \$117 million to taxpayers which were deducted from the tax collections for those months while March, 1961 collections were affected by similar refunds of \$73 million. Receipts in the month of January from deductions at the source have been in recent years somewhat greater than in other months probably due to tax deductions from year-end bonuses. Other collections of personal income tax include taxes paid by instalments, which are usually received in April, July, October and January in each year, as well as amounts paid on the filing of income tax returns; these latter sums are for the most part collected in April and May with May receipts being much the greater. Corporation income tax receipts in the months of May to July, 1960 inclusive were greater than in other months reflecting payments by corporation tax payers to make up the balance of payments due on their 1959 tax liabilities which were underpaid in the first nine months of the period over which their 1959 taxation year payments were spread. In the months subsequent to July, receipts were largely in respect of the 1960 taxation year. Commodity tax receipts, that is, receipts of customs import duties, and sales and other excise taxes and duties, varied from month to month although receipts in the first and second halves of the year did not vary greatly; receipts in the first half of the year were about 49 per cent of the total for the year. As for revenues from all other sources, the large receipts in the months of December, 1960 to March, 1961 were due mainly to returns on investments.

The table which follows shows major classifications of budgetary expenditures by months for the fiscal year 1960-61:

BUDGETARY EXPENDITURES BY MONTHS AND MAJOR CLASSIFICATIONS

For Fiscal Year Ended March 31, 1961
Millions of Dollars

From the preceding table it may be seen that certain classes of expenditures appeared to follow clearly defined patterns while others did not. Those expenditures which did show a high degree of monthly regularity were public debt charges, payments to the provinces, family allowances and veterans affairs, which accounted for 48 per cent of all non-defence expenditures. Monthly expenditures for public debt charges include the discount on treasury bill issues and the accrual of interest on other unmatured debt and other liabilities, the monthly variations being due largely to treasury bill yields and the number and amount of treasury bill issues. The marked increase in September, 1960 was due mainly, however, to an adjustment in respect of previous treasury bill discounts. The variation in the monthly payments to the provinces was due principally to subsidies paid in July, 1960 and January, 1961 and to the adjustment in December, 1960 in respect of 1959-60 tax-sharing arrangements. Family allowance payments increased gradually during the year reflecting the change in the number of children in the eligible age groups, while there were only minor monthly variations in veterans affairs expenditures.

Defence expenditures did not follow any definite pattern nor did those of the Departments of Public Works and Transport. It is the usual practice to let construction contracts early in the fiscal year and payments are generally substantially higher during and following the construction period. This was reflected particularly in the monthly expenditures of the Departments of Public Works and Transport and to a lesser extent in those of the Department of National Defence. Variations in monthly expenditures of the latter department are due in large part to expenditures on operations and maintenance and on procurement of equipment. Expenditures of the Department of Transport were also affected by the charge in the March supplementary period of \$67 million for the operating deficit of the Canadian National Railways.

All other expenditures varied considerably from month to month. Some of the factors causing these variations were a charge in August of \$50 million for the contribution to the Colombo Plan fund, payments of \$27 million in October to the western grain producers, payments of \$16 million in January for university grants and charges in the March supplementary period of \$53 million to cover the loss in the agricultural commodities stabilization account and \$9 million in respect of the deficit in the prairie farm emergency fund.

B. REVENUES

Budgetary revenues amounted to \$5,618 million in the fiscal year 1960-61, \$328 million or 6 per cent more than in 1959-60. Of this total, \$5,016 million or 89 per cent was derived from tax revenues and \$602 million or 11 per cent from non-tax revenues.

BUDGETARY REVENUES BY SOURCE

(1) TAX REVENUES

Tax on personal incomes

The largest source of government revenue in 1960-61 was again the personal income tax. The yield (excluding the old age security tax) was \$1,711 million, 30 per cent of all budgetary revenue. The increase of \$145 million or 9 per cent over the 1959-60 collections was due partly to the higher level of incomes during the year and partly to the increase in rates which took effect on July 1, 1959. The 1959-60 receipts did not include a full year's return at the increased rates.

The tax on personal incomes, levied under the Old Age Security Act, yielded \$229 million which was credited to the old age security fund.

Corporation income tax

The corporation income tax which yielded \$1,277 million (excluding the old age security tax) in 1960-61, or 23 per cent of total revenues, was the second largest revenue-producer. There was an increase of \$134 million or 12 per cent over the 1959-60 receipts, despite the fact that 1960 profits were lower than those of 1959. The increase in collections was due to the fact that substantial amounts were collected in 1960-61 on account of 1959 profits and also to the increase in rates effective January 1, 1959. The 1959-60 collections did not reflect a full year's return at the higher rate as corporations do not start making their monthly payments in respect of a taxation year until six months after it has begun.

In addition the tax on incomes of corporations levied under the Old Age Security Act yielded \$104 million which was credited to the old age security fund.

Taxes on dividends, interest, etc., going abroad

Revenue included in this category is derived from taxes withheld on payments of dividends, interest, rents, royalties, alimony and income from estates and trusts made to non-residents. Receipts were \$88 million in 1960-61, \$15 million or 20 per cent more than in the previous fiscal year. The increase was largely attributable to the changes effected by the Supplementary Budget of December 1960 in the taxation of income going to non-residents which is at a general flat rate of tax of 15 per cent. The exemptions from this tax and the special reduced rates which existed prior to that date were withdrawn except for certain special cases.

Excise taxes

Included under this heading are the revenues from the general sales tax and the special excise taxes levied on a number of manufactured products.

From a revenue standpoint the most important tax levied under the Excise Tax Act is the sales tax. Receipts from this tax (excluding the old age security tax) were \$721 million, \$12 million or 2 per cent lower than those of the previous year. This decline is believed to have resulted because some remittances of tax, which would normally have been received on March 31, were delayed until April because March 31 fell in the Easter holiday week-end.

The tax on sales, levied under the Old Age Security Act, yielded \$270 million which was credited to the old age security fund.

Excise taxes levied under the Excise Tax Act, other than the general sales tax, yielded \$291 million, an increase of \$3 million over 1959-60 receipts. The tax on tobacco products yielded \$194 million, \$8 million or 4 per cent more than in the previous year whereas receipts from the tax on automobiles were \$60 million, \$5 million or 7 per cent less than those in the previous year. The smallness of the overall increase over 1959-60 is attributable to an Easter Holiday week-end which started on Friday, March 31 thus causing some remittances in respect of 1960-61 liability to be received in 1961-62.

Customs import duties

Customs import duties accounted for \$499 million in 1960-61 compared with \$526 million in 1959-60. The decrease of \$27 million or 5 per cent reflected a reduction in the volume and value of imports during the year.

Excise duties

Excise duties are levied on alcoholic beverages and tobacco products. (Additional taxes on tobacco products are levied under the Excise Tax Act referred to above.) Gross receipts in 1960-61 from the taxes on alcoholic beverages were \$200 million and from the taxes on tobacco products were \$150 million, compared with \$193 million and \$146 million respectively in 1959-60.

Estate tax

The revenue from this source amounted to \$85 million in 1960-61, a decrease of \$4 million from the 1959-60 total. Although the Estate Tax Act replaced the Dominion Succession Duty Act with respect to deaths on and after January 1, 1959, part of the revenue received in 1960-61 was derived from duties assessed under the Dominion Succession Duty Act.

Other taxes

Revenue under this heading amounted to less than \$50 thousand in 1960-61, approximately the same as in 1959-60.

(2) NON-TAX REVENUES

Budgetary revenues other than tax revenues amounted to \$602 million in 1960-61, an increase of \$64 million or 12 per cent over the 1959-60 total of \$538 million.

Return on investments

Receipts in this category were \$284 million in 1960-61, an increase of \$44 million over the 1959-60 total.

Payments from Crown corporations amounted to \$195 million compared with \$153 million in 1959-60. Increases of \$16 million in receipts from the Bank of Canada, \$16 million from

Central Mortgage and Housing Corporation, \$8 million from The St. Lawrence Seaway Authority, \$3 million from the Canadian National (West Indies) Steamships Limited and other smaller increases amounting to \$5 million were offset partly by a decrease of \$6 million in receipts from the Canadian National Railways.

Other loans and investments yielded \$89 million, \$2 million more than in 1959-60. The main items of note were an increase of \$7 million in the profits of the exchange fund account and a decrease of \$4 million in interest on Receiver General deposits with chartered banks.

Post office revenue

Gross post office receipts totalled \$202 million in 1960-61 but authorized disbursements from revenue for salaries and rent allowances at semi-staff and revenue offices, commissions at sub offices, transit charges on Canadian mail forwarded through or delivered in foreign countries, etc., amounting to \$28 million, brought net revenue to \$174 million. In 1959-60 gross receipts were \$194 million and authorized disbursements were \$26 million.

As costs of operating the Post Office Department during 1960-61 (excluding the \$28 million charged to revenue) were \$178 million, net expenditure exceeded net revenue by \$4 million. However, in making this comparison it is to be noted that the total shown for post office revenue does not reflect any payment for the franking privilege covering parliamentary and departmental mail or for certain miscellaneous services provided for other government departments and

Refunds of previous years' expenditure

Refunds in 1960-61 of expenditures made in prior years amounted to \$41 million, approximately the same total as the 1959-60 receipts.

Also included were \$5 million received by the Department of Transport, mainly in respect of the Canso Causeway and \$4 million received by the Department of Finance, of which \$3 million was a repayment by the Province of Ontario in connection with succession duty payments

under the tax rental agreements and a refund by the Canadian Broadcasting Corporation of \$4 million which was the unexpended balance of parliamentary grants to the corporation as at March 31, 1960.

Services and service fees

Collections in 1960-61 for services and service fees were \$36 million, an increase of \$4 million over the previous year's receipts.

wartime housing properties and including amounts available as the result of the reversal of the provision for depreciation set aside by the corporation in previous years on properties that have now been sold.

Privileges, licences and permits

Bullion and coinage

Revenue of \$9 million under this heading was derived from the operations of the Royal Canadian Mint and included a net gain of \$8 million on coinage. Gain on gold refining and charges for gold refining and handling amounted to \$1 million.

Other non-tax revenues

Revenues in this category amounted to \$8 million, \$2 million more than in 1959-60.

C. APPROPRIATIONS

Although a major part of the expenses of the public service is defrayed from moneys granted by Parliament in the annual appropriation acts, substantial payments are also made under the authority of other acts, which authorize expenditures out of the consolidated revenue fund for specified purposes and for such definite or indefinite amounts and during such periods of time as the acts may prescribe. The spending authority granted in these annual appropriation acts differs from that granted in “statutory” authorities in that it is usually for a specific amount and of definite duration and, unless there is provision to the contrary in the vote, any unused balance lapses at the end of the fiscal year for which it was granted, as provided by section 35 of the Financial Administration Act.

The following is a summary of budgetary expenditures under the authority of the annual appropriation acts and various statutory authorities for the fiscal year ended March 31, 1961. A statement in greater detail, classified by departments, is presented on page 162.

⁽¹⁾ Available for expenditure in 1961-62.

In Appropriation Acts Nos. 2, 4, 5, 6 and 7, Statutes of 1960, and Appropriation Act No. 2, Statutes of 1961, amounts aggregating \$3,757 million were granted by Parliament to cover the expenses of the public service other than outlays for loans, investments and working capital advances for the fiscal year ended March 31, 1961. In addition an amount of \$15 million was carried forward from 1959-60 for expenditure in 1960-61 in accordance with provisions made in the original appropriations. Disbursements during 1960-61, under the authority of these grants, amounted to \$3,518 million. Consequently \$254 million, or about 7 per cent of the amount provided by the appropriation acts for budgetary expenditures, was unspent at the close of the fiscal year. Of this amount \$225 million lapsed in accordance with section 35 of the Financial Administration Act and \$29 million was available for expenditures in 1961-62 in accordance with provisions of the original appropriations.

Budgetary expenditures during 1960-61 under the authority of statutes authorizing payments from the consolidated revenue fund for specific purposes without further appropriations amounted in the aggregate to \$2,440 million representing approximately 39 per cent of the total of \$6,197 million for all budgetary expenditures. A comparative summary of these statutory expenditures by principal classes is shown in the following table:

⁽²⁾ \$26.1 million was charged to budgetary expenditures in 1959-60, as provided by Vote 124 of Appropriation Act No. 6, Statutes of 1960.

⁽³⁾ In addition, \$10 million was charged to budgetary expenditures in 1959-60, as provided by Vote 444 of Appropriation Act No. 5, Statutes of 1959 and \$10 million in 1960-61 as provided by Vote 453 of Appropriation Act No. 6, Statutes of 1960.

PRINCIPAL CLASSES OF BUDGETARY EXPENDITURES

1. The unshaded areas of the columns in the chart for health, welfare and social security represent pension payments out of the old age security fund not charged to budgetary expenditures in the year in which they were paid.

2. Does not include those payments made to provincial and municipal governments for specific purposes.

D. EXPENDITURES

Budgetary expenditures in 1960-61 amounted to \$5,958 million, an increase of \$255 million or four and one-half per cent over the total of \$5,703 million in 1959-60.

Defence expenditures which were again the largest category of budgetary expenditures amounted to \$1,538 million or 26 per cent of the total. This represented an increase of \$4 million or less than one-fifth of one per cent over the 1959-60 defence expenditures which totalled \$1,534 million and were 27 per cent of the 1959-60 expenditures.

Non-defence expenditures amounted to \$4,420 million, an increase of \$252 million or 6 per cent over the total of \$4,169 million in 1959-60. This increase was due mainly to increases of \$71 million in expenditures of the Department of National Health and Welfare (of which \$39 million was due to the government's contributions under the Hospital and Diagnostic Services Act), \$40 million in expenditures of the Department of Finance (of which \$19 million was for tax-sharing, subsidy and other payments to provinces, including transitional and additional grants to Newfoundland) and \$40 million in expenditures of the Department of Transport (of which \$24 million was attributable to the increased deficit of the Canadian National Railways). The Department of Forestry was created by an Act given Royal Assent on August 1, 1960 and comprises the former divisions of the Department of Agriculture and the Department of Northern Affairs and National Resources relating to forestry; expenditures were \$10 million for the fiscal year 1960-61.

A comparative summary of budgetary expenditures for the last two fiscal years, classified by departments and principal purposes, is given in the following table:

As statements of accountability to Parliament it is appropriate that the expenditures should be reported on the basis of the classifications adopted in the Appropriation Acts and the Estimates, and so in the accounting statements in subsequent sections of this report and in the analysis of the year's expenditures later in this section of the survey these are the classifications that have been followed. However, analyses of expenditures by function or purpose on the one hand, and by object or type of goods or service acquired on the other, supplement the information contained in statements of expenditures by departmental or administrative units. In the preceding table a classification of expenditures by major function or purpose is presented. For purposes of comparison, expenditures for the four preceding years have been compiled on the same basis.

In the following table a comparative summary of budgetary expenditures by standard objects is presented for the fiscal years 1960-61 and 1959-60. A summarized statement of 1960-61 expenditures by standard objects and special categories as set out in the Estimates and classified by departments is presented in a subsequent section of this volume.

(1) DEFENCE EXPENDITURES

Defence expenditures which consist of expenditures of the Departments of National Defence and Defence Production were again the largest category of government budgetary expenditures. The total of \$1,538 million for 1960-61 was approximately 26 per cent of the aggregate budgetary expenditures of the government for the year and was \$4 million more than the total of \$1,534 million for 1959-60.

National Defence

Expenditures of the Department of National Defence were \$1,518 million in 1960-61. In 1959-60 expenditures were \$1,517 million.

Expenditures for naval, army and air services totalled \$1,399 million, \$14 million more than the 1959-60 total. Increases of \$23 million in outlays for air services and \$1 million for army services were offset in part by the decrease of \$10 million in outlays for naval services.

Direct charges to mutual aid amounted to \$15 million in 1960-61 compared with \$18 million for 1959-60 and consisted of procurement of equipment for mutual aid and Canada's share of NATO military budgets and infra-structure costs.

Expenditures for defence research and development were \$42 million compared with \$39 million in 1959-60.

The government's contribution to the Canadian forces superannuation account of an amount equal to $1\frac{1}{2}$ times the contributions by permanent services personnel was \$41 million, a decrease of \$11 million from the total for the previous year. The decrease was a result of a provision of the new act effective March 1, 1960 which authorized the crediting to the superannuation account quarterly, in each fiscal year, such amount, in relation to the total amount paid into the said account during the preceding quarter by way of contributions in respect of current services and past services rendered by contributors, as is specified by the Minister of Finance. The contribution for 1960-61 therefore, was based on a nine-month period from April 1, 1960 to December 31, 1960, inclusive, compared to the contribution for 1959-60 which was based on

a period of twelve months. The payment for the quarter ending March 31, 1961 will be charged to the statutory item "Government's contribution to the Canadian forces superannuation account", in the fiscal year 1961-62.

Administration and general costs were \$21 million in 1960-61, a decrease of \$1 million from the 1959-60 total.

Defence Production

The total expenditure of \$20 million in 1960-61 for the Department of Defence Production was \$3 million more than in 1959-60, due mainly to increased administration and general costs. Outlays of \$3 million in connection with the government program instituted in 1959-60 of supporting selected defence development programs in order to sustain technological capability in Canadian industry were \$1 million more than in 1959-60. Expenditures of \$2 million in respect of the procurement of capital assistance by Canadian Arsenals Limited and the programs under which assistance for the establishment of production capacity and capital assistance is given to private contractors, Crown plants operated on a management-fee basis and Crown corporations undertaking contracts essential to the defence program were approximately \$1 million less than corresponding expenditures in the previous fiscal year.

Cash outlays for defence

In addition to these budgetary expenditures for defence, there were certain other cash outlays which must be considered in assessing the full effect of the defence program on the economy of Canada.

Section 11 of the National Defence Act provides that materiel, not immediately required for the use of the Canadian defence forces or the Defence Research Board, may be sold to such countries and upon such terms as the Governor in Council may determine. The proceeds of such sales in 1960-61 amounting to \$4 million were credited to a special account to be used for the procurement of materiel. Cash outlays from this account during 1960-61 were \$3 million leaving a balance of \$5 million at March 31, 1961.

The Department of Defence Production also makes cash disbursements for the procurement of materials for use in the manufacture of defence equipment which are not recorded as budgetary expenditures. For purposes of accounting and control, these amounts are charged to the defence production revolving fund and are treated as assets on the books of the government

until they are billed to the Department of National Defence or sold to defence contractors for use in the manufacture of defence equipment. As a result of the transactions during 1960-61 proceeds from sales exceeded purchases by \$5 million and the assets of the fund were reduced by an equivalent amount leaving a balance of \$16 million in the account at March 31, 1961.

The following table summarizes the cash outlays for defence for the past two fiscal years:

(2) NON-DEFENCE EXPENDITURES

Agriculture

Expenditures of the Department of Agriculture totalled \$265 million for 1960-61 compared with \$227 million for 1959-60.

Payments of \$41 million to western grain producers for which there was no comparable charge in 1959-60, and increases of \$6 million for assistance re storage costs of grain and \$3 million in outlays for rehabilitation and reclamation projects were offset partly by decreases

of \$5 million in freight assistance on western feed grains, \$4 million in the net operating loss of the agricultural stabilization board, \$3 million in the deficit of the prairie farm emergency fund and \$3 million in contributions in respect of unharvested crops.

In 1960-61 expenditures in respect of the assistance re storage costs of grain and the Board of Grain Commissioners and payments in connection with the Prairie Grain Advance Payments Act were transferred to this department from the Department of Trade and Commerce under the authority of the Public Service Rearrangement and Transfer of Duties Act. On August 1, 1960 Royal Assent was given to an act creating the Department of Forestry, comprising former divisions of the Department of Agriculture and the Department of Northern Affairs and National Resources relating to forestry. For purpose of comparison adjustments in respect of the 1959-60 expenditures of the Department of Agriculture have been made in the preceding table.

The 1960-61 net operating loss of the agricultural stabilization board was \$53 million compared with \$57 million in 1959-60.

Under the authority of Vote 576 of Appropriation Act No. 6, 1960, amounts totalling \$41 million were paid to western grain producers as a higher return for wheat used for human consumption in Canada, and distributed on the basis of \$1.00 per cultivated acre up to a maximum of 200 acres per farm in accordance with regulations of the Governor in Council. There was no expenditure for this purpose in 1959-60.

Advances of \$9 million made by the Minister of Finance to the prairie farm emergency fund to cover the year's deficit were charged to budgetary expenditures. The comparable amount in 1959-60 was \$12 million.

Atomic Energy

Expenditures of the Atomic Energy Control Board and payments to Atomic Energy of Canada Limited totalled \$39 million compared with \$30 million in 1959-60, an increase of \$9 million.

Administration expenses of the Atomic Energy Control Board and grants for research and investigations with respect to atomic energy totalled \$1 million, approximately the same as for the previous fiscal year.

During the year under review \$38 million was paid to Atomic Energy of Canada Limited for its research program, \$9 million more than in the previous year. Of the total, \$23 million was for current operations and maintenance and \$15 million for the construction or acquisition of buildings, works, land and equipment.

In addition, loans in the amount of \$2 million were made to Atomic Energy of Canada Limited during the year. This brought the total of advances covered, or to be covered, by obligations or shares of the company to \$61 million at March 31, 1961.

Canadian Broadcasting Corporation

Payments of \$67 million were made by the government to the Canadian Broadcasting Corporation during 1960-61, an increase of \$3 million over the total for 1959-60. However, it must be noted, that, \$4 million which was the unexpended balance of parliamentary grants to the corporation as at March 31, 1960, was refunded to the government in 1960-61 and credited to non-tax revenue, refunds of previous years expenditure.

Grants for radio and television services increased by \$3 million over the corresponding total for 1959-60, while expenditures for the international shortwave broadcasting service remained at approximately \$2 million.

In addition, during the fiscal year 1960-61 advances totalling \$3 million were made to the Canadian Broadcasting Corporation for working capital requirements.

Citizenship and Immigration

Expenditures of the Department of Citizenship and Immigration were \$61 million in 1960-61, an increase of \$6 million over the total for 1959-60.

Outlays for the Indian affairs branch increased by \$5 million during 1960-61, due principally to increases of \$3 million in expenditures for Indian education and \$1 million for Indian welfare. Expenditures of the immigration branch were approximately \$1 million more than the comparable figure for the previous fiscal year.

External Affairs

Expenditures of the Department of External Affairs totalled \$103 million in 1960-61, an increase of \$6 million over the previous year.

The principal changes in expenditure as compared with the previous year were increases of \$10 million in contributions to international organizations, \$2 million in costs of representation abroad and \$1 million in administration and general, offset partly by a decrease of \$7 million in assistance to other countries.

Contributions to international organizations increased by \$10 million during the year due mainly to outlays of \$6 million for the purchase and transfer of wheat flour to assist in the establishment of strategic stock piles of food supplies in member states of NATO, \$2 million representing Canada's contribution to the United Nations Fund for the Congo and Canada's assessment for the United Nations Congo Ad Hoc Account, 1960 (there were no expenditures for these items in 1959-60) and \$1 million for Canada's assessment towards the financing of the United Nations emergency force.

In 1960-61 expenditures of the economic and technical assistance branch were transferred to this department from the Department of Trade and Commerce under authority of the Public Service Rearrangement and Transfer of Duties Act. The expenditures for 1960-61 and 1959-60 are included in administration and general costs in the following table.

Finance

Expenditures of the Department of Finance amounted to \$1,460 million in 1960-61 an increase of \$40 million over the corresponding total of \$1,420 million in 1959-60.

Increases of \$19 million in tax-sharing, subsidy and other payments to provinces, \$14 million in public debt charges, \$6 million in the government's share of medical-surgical insurance premiums for its own employees (there was no comparable amount in 1959-60), \$3 million in administration and general costs, \$2 million in grants to municipalities in lieu of taxes on federal property and \$2 million in the administration expenses of the Office of the Comptroller of the Treasury were offset partly by a decrease of \$7 million in payments to the Canadian Universities Foundation for the purpose of making grants to institutions of higher learning. This decrease was due to the Province of Quebec levying a special tax instead of accepting a grant through the Foundation.

Government's contribution to the public service superannuation account

In 1960-61 the government's contribution to the public service superannuation account amounted to \$41 million, an increase of \$1 million over the comparable figure for 1959-60.

Public debt charges

In 1960-61 public debt charges were again the second largest item of budgetary expenditure. These charges, which consist of interest on public debt, the annual amortization of bond discounts and commissions, the cost of issuing new loans and other costs incurred in servicing the public debt, amounted to \$798 million in 1960-61 or 13 percent of all budgetary expenditure compared with \$784 million or 14 per cent in 1959-60.

The table which follows presents a comparative summary of public debt charges for 1960-61 and 1959-60. Statements in greater detail are presented in Appendices Nos. 6 to 9.

Interest on public debt was \$757 million in 1960-61, an increase of \$21 million over the 1959-60 total of \$736 million. Interest of \$613 million on unmatured debt was \$12 million higher due mainly to an increase in unmatured debt; interest of \$144 million on other liabilities was \$9 million higher reflecting the increase of \$10 million in interest on annuity, insurance and pension accounts offset partly by a decrease of \$1 million in interest on deposit and trust accounts. The increase of \$10 million in interest on annuity, insurance and pension accounts was due mainly to increases of \$4 million in respect of the Canadian forces superannuation account, \$4 million in respect of the public service superannuation account and \$2 million in respect of the government annuities account.

The following table shows the liability as at March 31, and interest charges for the fiscal year ended March 31, for the years 1957 to 1961, inclusive, with respect to unmatured debt, deposit and trust accounts, and annuity, insurance and pension accounts:

(1) No interest is payable on a portion of these amounts. Interest was paid on \$101.2 million in 1956-57; \$106.5 million in 1957-58; \$106.6 million in 1958-59; \$102.6 million in 1959-60 and \$100.4 million in 1960-61.

(2) No interest is payable on a portion of these amounts. Interest was paid on \$2,361.4 million in 1956-57; \$2,639 million in 1957-58; \$3,220.4 million in 1958-59; \$3,480.2 million in 1959-60 and \$3,829.8 million in 1960-61.

Other public debt charges amounted to \$41 million compared with \$48 million in 1959-60. The decrease of \$7 million was due mainly to reductions of \$6 million in the cost of annual amortization of bond discounts and commissions and \$1 million in the cost of issuing new loans.

When considering the magnitude of these public debt charges and the burden they place upon the public treasury, it must be borne in mind that a substantial portion of the debt is attributable to, or is invested in, productive or earning assets. Therefore, in calculating the *net* burden of the government's annual interest charges, the income derived from loans, investments and other productive assets must be taken into account. For 1960-61 this income was \$284 million as shown in the non-tax revenue section under the heading "Return on investments". This amount deducted from the gross total of \$757 million for interest as shown in the above table leaves a net amount of \$473 million compared with a net of \$496 million in 1959-60. Measured as a percentage of the net debt the burden of the net annual interest charges was 3.80 per cent in 1960-61 compared with 4.10 per cent in 1959-60. As a percentage of the gross national product for the calendar year ending within the fiscal year, the relative burden was 1.32 per cent compared with 1.43 per cent in 1959-60.

The following table presents the gross interest charges, the return on investments, the net interest charges, the net debt and the net interest as a percentage of the net debt for the fiscal years ended March 31, 1957 to 1961 inclusive.

Tax-sharing, subsidy and other payments to provinces

Payments to the provinces during 1960-61 for statutory subsidies, payments under the Federal-Provincial Tax-Sharing Arrangements Act, the transitional and additional grants to Newfoundland, and the transfer of a portion of income tax receipts from certain public utility companies amounted to \$538 million compared with \$519 million in 1959-60.

Charges to budgetary expenditures in 1960-61 under the federal-provincial tax-sharing arrangements, including adjustments made on account of previous years, were \$19 million more than in 1959-60. The increase was due to higher personal income tax collections for the 1960 taxation year and to adjustments necessitated in the final calculation of the tax-sharing arrangements payments for 1959-60 which were required to be made by December 31, 1960.

Payments of \$505 million to the provinces under the federal-provincial tax-sharing arrangements in 1960-61 were adjusted by deducting a total of \$1 million from the tax-sharing entitlements of Newfoundland, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan, making a net disbursement to the provinces of \$504 million. These deductions represented recovery of one-fifth of the overpayments made to those provinces under the 1952 tax rental agreements on account of an over-estimation of their population as revealed by the 1956 census. By Memoranda of Agreement with the provinces concerned, the 1952 tax rental agreements were amended to authorize the recovery of the overpayments in equal monthly deductions from the tax-sharing payments to those provinces over the five-year life of the new arrangements.

Statutory subsidies at \$21 million in 1960-61 were unchanged from the previous year.

The amount of public utility tax receipts transferred to the provinces in 1960-61 was \$4 million, a decrease of nearly \$1 million from the 1959-60 total. The 1960-61 payment represents the transferable portion of the income tax received from corporations whose main business was the distribution to, or the generation for distribution to, the public of electrical energy, gas or steam for the taxation year 1958. The payment was authorized by Vote 115 of Appropriation Act No. 6, 1960.

Fisheries

Expenditures of the Department of Fisheries amounted to \$19 million in 1960-61, \$1 million less than in 1959-60.

Expenditures were \$10 million for 1960-61. The following table shows the total expenditures for 1960-61 with the corresponding expenditures of the Department of Agriculture and the Department of Northern Affairs and National Resources for 1959-60.

Labour

Expenditures of the Department of Labour amounted to \$121 million during 1960-61 an increase of \$18 million over the 1959-60 total of \$103 million. Increases of \$9 million in the government's contribution to the unemployment insurance fund, \$6 million in administration and general expenditures of the Unemployment Insurance Commission and \$2 million in payments to provinces for assistance to municipalities for winter work projects were the main factors contributing to this increase.

Payments to provinces and in respect of Indian bands by the Government of Canada during 1960-61 of amounts not exceeding one-half of the cost of labour incurred on winter work projects were \$9 million compared with \$7 million in 1959-60.

Unemployment Insurance Act administration and government's contribution

Expenditures in 1960-61 relating to the Act (excluding the government's payment as an employer which is included in the expenditures of the Department of Finance) amounted to \$97 million compared with \$82 million in 1959-60.

Unemployment insurance benefit payments are not charged to budgetary expenditures but are paid from the unemployment insurance fund which is financed by equal contributions from employees and employers, by interest earned on investments, and by the government's contribution of an amount equal to one-fifth of the combined employee-employer contributions. Further information in regard to the unemployment insurance fund is given under the liability category "Annuity, insurance and pension accounts".

⁽¹⁾ Contributions by employees and employers are on an equal basis.

⁽²⁾ Government contribution is equal to 20 per cent of the combined employee-employer contributions.

⁽³⁾ Less than \$50,000.

The government's contribution to the fund for 1960-61 was \$55 million and administrative costs were \$42 million; the corresponding amounts for 1959-60 were \$46 million and \$36 million respectively. The increase in the government's contribution was due partly to a full year's effect of the increase in rates of employee-employer contributions effective September 27, 1959.

Mines and Technical Surveys

Expenditures of the Department of Mines and Technical Surveys totalled \$59 million for 1960-61, an increase of \$5 million over the total for 1959-60.

Increases of \$2 million in expenditures for surveys and mapping, \$2 million in expenditures of the Dominion Coal Board, \$1 million in expenses of the geological survey of Canada and \$1 million in administration and general costs were offset partly by a decrease of \$1 million in payments under the Emergency Gold Mining Assistance Act.

National Health and Welfare

Expenditures for the Department of National Health and Welfare during 1960-61 amounted to \$887 million, an increase of \$71 million over the total for the previous fiscal year.

Outlays for the national health branch totalled \$270 million in 1960-61, reflecting an increase of \$43 million over the previous year's total due mainly to increases of \$39 million in government contributions under the Hospital Insurance and Diagnostic Services Act, \$2 million in general health grants to provinces and \$2 million in expenditures for Indian and northern health services.

During 1960-61 expenditures of the welfare branch increased by \$27 million over the comparable figure for 1959-60, due mainly to increases of \$15 million for family allowances and \$11 million for unemployment assistance.

*Government's contributions under the Hospital Insurance
and Diagnostic Services Act*

The Hospital Insurance and Diagnostic Services Act, Statutes of 1957, authorized contributions by Canada in respect of programs administered by the provinces, providing hospital insurance and laboratory and other services in aid of diagnosis. Payments for 1960-61 amounted to \$189 million compared with \$150 million in 1959-60. The increase of \$39 million was due partly to the fact that during the previous fiscal year seven provinces had participated in the plan for a full fiscal year and two provinces for a partial year, whereas in the current fiscal year all provinces and territories participated under the agreements for a full year with the exception of the Yukon Territory and the Province of Quebec whose dates of entry under the plan were July 1, 1960 and January 1, 1961 respectively.

The effective date of each agreement is as follows:—July 1, 1958 for Newfoundland, Manitoba, Saskatchewan, Alberta and British Columbia; January 1, 1959 for Nova Scotia and Ontario; July 1, 1959 for New Brunswick; October 1, 1959 for Prince Edward Island; April 1, 1960 for the Northwest Territories; July 1, 1960 for the Yukon Territory; and January 1, 1961 for Quebec.

Family allowances

Family allowances are payable in respect of all children under sixteen years of age, resident in Canada, with minor exceptions such as in the case of children of immigrants who must reside in Canada one year before an allowance is payable. The monthly allowance is \$6 if the child is under 10 years and \$8 in the age group 10 to 15. Children of immigrants receive family assistance of \$5 per month during their first year of residence in Canada from the Department of Citizenship and Immigration if during that period they are under sixteen years of age.

Family allowance payments in 1960-61 amounted to \$506 million and represented 8 per cent of total expenditures. The increase of \$15 million over the previous year reflected the increase in the number of children in the eligible age groups.

Old age assistance, disabled persons allowances, blind persons allowances and unemployment assistance

Under the Old Age Assistance Act, the federal government reimburses the provinces by paying 50 per cent of the lesser of \$55 monthly or the amount of assistance given by the provinces in the form of monthly pensions to eligible persons in need who are in the age group 65 to 69. (Under the Old Age Security Act, all persons 70 years and over who satisfy the residence requirements of the Act may receive a pension of \$55 per month from the federal government out of the old age security fund.) Similarly, the federal government reimburses the provinces under the Blind Persons Act for allowances of not more than \$55 per month to blind persons in need 18 years of age or over by paying 75 per cent of the total payments, and under the Disabled Persons Act by paying 50 per cent of not more than \$55 per month for allowances to disabled persons in need 18 years of age or over. In 1960-61 payments of \$31 million for old age assistance, \$16 million in respect of disabled persons allowances and \$4 million for blind persons allowances were approximately the same as in 1959-60.

Under the Unemployment Assistance Act the federal government contributes up to 50 per cent of the cost of unemployment assistance paid by the provinces, subject to certain deductions as set out in the Act. All provinces have signed agreements with the federal government. There was an increase of \$11 million in these contributions over those for the previous year.

The following table presents a distribution of these payments to provinces for 1960-61:

National Research Council

Expenditures of the National Research Council amounted to \$34 million in 1960-61, \$3 million higher than for 1959-60. Increases of \$1 million in construction or acquisition of buildings, works, land and equipment, and \$2 million in administration and general expenses were the main factors contributing to this increase.

Expenditures of the Department of Northern Affairs and National Resources in the fiscal year 1960-61 were \$74 million, approximately the same as the total for 1959-60.

Increases of \$3 million in contributions to the provinces to assist in the development of roads leading to resources and other smaller increases totalling \$1 million were offset by decreases of \$2 million in outlays of the national parks branch and \$2 million in expenditures of the northern administration branch.

On August 1, 1960 Royal Assent was given to an act creating the Department of Forestry, comprising former divisions of the Department of Agriculture and the Department of Northern Affairs and National Resources relating to forestry. For purposes of comparison adjustments in respect of expenditures of the Department of Northern Affairs and National Resources have been made in the following table.

Post Office

Gross expenditures of the Post Office Department for 1960-61 were \$207 million, an increase of \$15 million over the 1959-60 outlay of \$192 million.

Remuneration of postmasters and staffs at revenue and semi-staff offices, commissions at sub-offices and certain other authorized disbursements are paid from revenue. These payments, included in the total of \$207 million, amounted to \$28 million in 1960-61, an increase of \$2 million over the comparable total for 1959-60.

Decreases of \$12 million in public buildings—construction and services, and \$7 million in development engineering services were offset partly by the increase of \$1 million in payments to Central Mortgage and Housing Corporation in respect of defence housing administration, housing research and the clearance, replanning, rehabilitation and modernization of blighted or sub-standard areas and reimbursement of losses sustained as a result of the operation of federal-provincial housing projects.

The decline of \$12 million in outlays for public buildings—construction and services during 1960-61 was due mainly to a reduction of \$8 million in expenditures for the acquisition, construction and improvement of public buildings in Ottawa and \$10 million in other centres in Canada offset partly by increases of \$4 million for similar expenditures in localities outside of Canada and \$2 million in outlays for maintenance and operation.

The decrease of \$7 million in the expenditures of the development engineering services was due mainly to decreases of \$4 million in contributions to provinces under the terms of the Trans-Canada Highway Act and \$3 million in costs of construction of the Trans-Canada highway through national parks.

Royal Canadian Mounted Police

Expenditures for the Royal Canadian Mounted Police amounted to \$56 million for 1960-61, \$4 million more than the total spent in 1959-60.

Payments as shown in the table represent gross expenditures; payments received from the provinces and municipalities for police services amounting to \$10 million were credited to revenue.

Increased expenditures of \$1 million for the land, air and training divisions, \$1 million for higher costs of headquarters administration and national police services and \$1 million in the government's contributions to the Royal Canadian Mounted Police superannuation account, were the main factors contributing to the overall increase of \$4 million in departmental expenditures.

Effective April 1, 1960, by an Act of Parliament, the Royal Canadian Mounted Police pension account was renamed the Royal Canadian Mounted Police superannuation account. Under the new Act the government's contribution is based on the total amount paid into the account by contributors during the preceding quarter while under the old Act the government's contribution was based on the total amount paid into the account by contributors during the previous fiscal year. Consequently, the government contributed to the fund in 1960-61 an amount based on payments by contributors during the fiscal year 1959-60 and for the nine-month period April to December, 1960, inclusive.

Trade and Commerce

Expenditures of the Department of Trade and Commerce totalled \$22 million for 1960-61, an increase of \$4 million over the previous year.

The more significant factors responsible for this increase were increases of \$2 million in expenditures of the Dominion Bureau of Statistics, \$1 million in outlays for the trade commissioner service and \$1 million for administration and general.

In 1960-61 under the authority of the Public Service Rearrangement and Transfer of Duties Act, expenditures in respect of assistance re storage costs of grain, Board of Grain Commis-

sioners and Prairie Grain Advance Payments Act were transferred to the Department of Agriculture and expenditures of the economic and technical assistance branch were transferred to the Department of External Affairs. Also in 1960-61, expenditures in respect of the control and supervision of the National Industrial Design Council were transferred from the National Gallery to the Department of Trade and Commerce. For purposes of comparison the 1959-60 amounts covering these items have been reported under the departments to which they have been transferred.

Transport

Expenditures of the Department of Transport amounted to \$336 million in 1960-61, an increase of \$40 million over the total of \$296 million in 1959-60.

The increase of \$10 million in outlays for air services was attributable primarily to expanded services for aviation and consisted for the most part of increases of \$6 million in outlays of the civil aviation branch and \$3 million in costs of the meteorological branch.

Canal services expenditures increased by \$1 million in 1960-61 while outlays for marine services declined by \$11 million due to a decrease in expenditures for construction or acquisition of marine service steamers.

Expenditures for railway and steamship services increased by \$15 million due mainly to increases of \$12 million in payments under the Freight Rates Reduction Act and \$3 million in costs of construction and acquisition of auto-ferries.

The payment in respect of the Canadian National Railway deficit for the calendar year 1960 was \$67 million, \$24 million more than for 1959. The payment in respect of the Trans-Canada Air Lines deficit for the calendar year 1960 was \$3 million; in 1959 the air lines had a small surplus. Non-active advances to the National Harbours Board were \$1 million less than in the previous fiscal year.

Increases of \$2 million in outlays for treatment and welfare services, \$2 million in war veterans allowances and other benefits and \$1 million in pensions for disability or death were the main factors responsible for the increase.

The number of awards in effect at March 31, 1946, 1960 and 1961 and the payments in each of the fiscal years ended on those dates for (a) disability pensions including additional pensions for dependents, and (b) pensions for dependents of deceased eligible persons, arising out of world war 1, world war 2 and miscellaneous service (which includes special force service, civilian world war 2 service, defence forces—peace time service, burial grants for deceased pensioners, etc.) are shown in the following table:

Expenditures of the departments not dealt with in preceding sections amounted to \$33 million, an increase of \$3 million over the total for 1959-60. During 1960-61, under authority of the Public Service Rearrangement and Transfer of Duties Act, expenditures in respect of the control and supervision of the National Industrial Design Council were transferred from the National Gallery to the Department of Trade and Commerce.

For purposes of comparison the 1959-60 total for the National Gallery has been adjusted accordingly.

5. STATEMENT OF ASSETS AND LIABILITIES OF CANADA

A. SUMMARY

The statement of the assets and liabilities of the Government, as certified by the Auditor General, is presented on pages 98 and 99 on a comparative basis, showing the balance of each of the principal classifications of accounts at March 31, 1961, the corresponding balance at March 31, 1960, and the increase or decrease during the fiscal year 1960-61. It is followed by explanatory notes and by detailed schedules of the accounts which are also presented on a comparative basis. A description of the structure and more significant features of the statement of assets and liabilities is given in the section "The Government's Accounting System".

A condensed statement of the assets and liabilities of the Government of Canada at March 31, 1961, and March 31, 1960, with the net increases or net decreases during the fiscal year 1960-61 is presented in the following table:

B. CHANGES IN PRINCIPAL LIABILITY CLASSIFICATIONS DURING 1960-61

There was an increase of \$617 million in the gross liabilities of the government during 1960-61, bringing the total at March 31, 1961 to \$21,603 million. The main changes were increases of \$390 million in annuity, insurance and pension accounts, \$178 million in unmaturing debt and \$49 million in current and demand liabilities.

Current and demand liabilities

Obligations of the government payable currently or on demand increased by \$49 million during the fiscal year. The principal changes were increases of \$23 million in outstanding treasury cheques, \$16 million in interest accrued, \$12 million in outstanding matured debt, \$10 million in the revaluation adjustment of Canadian dollar balance in the international monetary fund (in 1959-60 this was a current asset item of \$3 million), \$9 million in interest due and outstanding and a decrease of \$24 million in accounts payable (those payments made in April in accordance with section 35 of the Financial Administration Act but which are applicable to the previous fiscal year).

Unemployment insurance fund

During the year there was a decrease of \$113 million in the unemployment insurance fund. The balance at March 31, 1961, including loans from the Minister of Finance amounting to \$67 million, was \$265 million compared with \$378 million at March 31, 1960. Investments in bonds and accrued interest amounting to \$247 million brought the funds of the commission on deposit with the government to \$18 million at March 31, 1961 compared with \$23 million at March 31, 1960.

Expenditures from the fund in 1960-61 included benefit payments of \$514 million (compared with \$415 million in the previous fiscal year) and losses of \$7 million on sales of securities. Receipts included contributions by employers and employees of \$275 million, contributions by the government of \$55 million, income of \$10 million from investments, and loans of \$67 million from the Minister of Finance.

Further information in respect of the unemployment insurance fund is given under the Department of Labour in the section, "Budgetary expenditures".

Government annuities account

This account increased by \$42 million during the year from \$1,157 million at March 31, 1960 to \$1,199 million at March 31, 1961. Premium receipts of \$49 million and interest of \$44 million credited to the account by the government exceeded payments of \$51 million to annuitants and beneficiaries.

Public service superannuation account

A credit of \$138 million was made to this account in 1960-61 to bring the balance in the account into line with an actuarial evaluation as at December 31, 1957 as calculated by the Department of Insurance. A contra entry was made to deferred charges—unamortized portion of actuarial deficiency in the public service superannuation account. This \$138 million plus the

government's contribution of \$41 million (equal to the estimated current and prior service payments of individuals in 1959-60), interest of \$51 million credited to the account and the excess of employees' current and prior service contributions of \$48 million and miscellaneous receipts of \$3 million over benefit payments of \$42 million accounted for the increase of \$239 million in the account.

Canadian forces superannuation account

There was an increase of \$102 million in this account during the fiscal year 1960-61. The increase reflected the government's contribution of \$41 million which is made at the rate of one and two-thirds times the current and prior service contributions, interest of \$43 million credited to the account, and contributions of \$32 million by permanent services personnel for current and prior years' service less benefit payments of \$14 million from the account.

Old age security fund

Under the Old Age Security Act pensions of \$55 per month are paid, without a means test, from the old age security fund to all eligible persons seventy years of age or over. Payments from the fund during 1960-61, were \$592 million while credits to the fund from the 3 per cent tax on personal incomes (maximum tax \$90), the 3 per cent tax on corporation profits and the 3 per cent sales tax totalled \$603 million leaving a net credit of \$11 million. In 1959-60 payments were \$575 million, receipts were \$547 million and the deficit in the fund covered by temporary loans from the Minister of Finance was \$28 million.

In the Budget Speech of April 9, 1959, the Minister stated that, since provision was being made for the necessary revenues (by increases in the old age security tax rates) to bring the fund into balance over the next two or three years, he did not propose to treat the 1959-60 deficit as a budgetary charge in that year but to carry it forward to 1960-61.

In accordance therewith the \$11 million excess of receipts over payments in 1960-61 was applied to reduce the temporary loans made in 1959-60 leaving a balance of \$17 million in the temporary loans account as at March 31, 1961.

Undisbursed balances of appropriations to special accounts

This category records the undisbursed balances of appropriations to special accounts for which moneys have been appropriated by Parliament and from which disbursements may be made for authorized purposes in periods subsequent to that in which the appropriation was made. There was a net increase of \$8 million in this category during the year bringing the balance at March 31, 1961 to \$105 million.

TABLE 70

In 1960-61 an amount of \$50 million was credited to the Colombo plan fund and charged to budgetary expenditure and disbursements charged to the account were \$45 million. The balance at March 31, 1961 was \$68 million.

The increase of less than \$1 million in the national capital fund represented the amount by which the \$3 million credited to the fund and charged to budgetary expenditure exceeded disbursements from the fund.

The increase of \$3 million in the railway grade crossing fund represented the amount by which the credit of \$15 million to the fund and charged to budgetary expenditure exceeded disbursements from the fund.

Deferred credits

Recorded in this category are the amounts of deferred interest on loans and advances to certain Crown corporations and national governments and other deferred payments due the government. These are contra accounts to corresponding items under "Cash in blocked currencies", "Loans to, and investments in, Crown corporations", "Loans to national governments", and "Other loans and investments".

Balances receivable under agreements of sale of Crown assets are set up as contra accounts to corresponding items under "Other loans and investments". The net decrease of \$4 million during the year was due to payments received on outstanding agreements.

The government's equity in the agency account of Crown Assets Disposal Corporation is a contra account to a corresponding item under "Other loans and investments". The balance at March 31, 1961 was \$5 million, approximately \$1 million less than at March 31, 1960.

There was no change during the year in deferred interest of \$44 million on loans made under the United Kingdom Financial Agreement Act, 1946, and of \$19 million on loans made to The St. Lawrence Seaway Authority. These are contra accounts to corresponding items under "Loans to national governments" and "Loans to, and investments in, Crown corporations" respectively.

Suspense accounts

These consist of balances where some uncertainty as to disposition exists.

The replacement of materiel account, established by section 11 of the National Defence Act, is credited with amounts realized from the sale of materiel that has not been declared surplus to requirements but has been authorized by the Governor in Council to be sold to other countries. The account is debited with disbursements representing amounts paid for the procurement of replacement materiel. During 1960-61 credits exceeded disbursements by \$1 million.

The unclaimed cheques account is credited with the amount of treasury cheques (except those drawn on asset and liability accounts) which remain undelivered for certain specified periods subsequent to date of issue, pending claims therefor.

Unmatured debt

The unmaturred debt of Canada at the close of the 1960-61 fiscal year amounted to \$16,068 million, an increase of \$178 million over the previous fiscal year total of \$15,890 million. Debt payable in Canada increased by \$250 million offset in part by decreases of debt payable in London of \$20 million and in New York of \$52 million. The decrease in debt payable in

The details of the various loan issues, redemptions and conversions resulting in the net increase are described more fully in the section, "The Public Debt".

In the year under review, unmatured debt obligations payable in London have been stated in Canadian dollars converted at the rate of \$2.80 for the pound sterling and that payable in New York at par for the U.S. dollar.

C. CHANGES IN PRINCIPAL ASSET CLASSIFICATIONS DURING 1960-61

The total assets increased during 1960-61 by \$269 million. The principal changes were increases of \$181 million in loans to, and investments in, Crown corporations, \$138 million in the unamortized portion of the actuarial deficiency in the public service superannuation account, \$88 million in other loans and investments, \$64 million in advances to the exchange fund account and decreases of \$78 million in current assets, \$68 million in sinking fund and other investments, \$36 million in loans to national governments and \$20 million in unamortized loan flotation costs.

Current Assets

The total of this category at March 31, 1961 was \$784 million compared with \$862 million at March 31, 1960. The main items of note were decreases of \$78 million in the cash accounts, \$25 million in departmental working capital advances and revolving funds and an increase of \$23 million in the securities investment account.

⁽¹⁾ Receiver General year-end balances in London, New York, Paris and Bonn are at the Canadian dollar equivalent of exchange rates at March 31.

Cash in current and special deposits decreased by \$71 million and cash in hands of collectors and in transit by \$7 million.

The decrease of \$25 million in departmental working capital advances and revolving funds was due to decreases of \$31 million in the agricultural commodities stabilization account and \$5 million in the defence production revolving fund offset partly by increases of \$3 million in miscellaneous departmental imprest and advance accounts and \$8 million in other accounts.

The 1960-61 operations of the agricultural stabilization board resulted in a net decrease in the agricultural commodities stabilization account of \$31 million, bringing the balance at March 31, 1961 to \$90 million. The operating loss of the board of \$53 million, representing the amount by which the cost of goods sold and other expenses exceeded revenue from sales, was charged to budgetary expenditures in accordance with Vote 666 of Appropriation Act No. 2, 1961.

The defence production revolving fund records the cost of materials procured for use in the manufacture of defence equipment until such time as they are billed to the Department of National Defence or sold to defence contractors for use in the manufacture of defence equipment, as well as working capital loans and advances for their production. Credits to the fund exceeded the costs of procuring new materials by \$5 million in 1960-61.

Miscellaneous departmental imprest and advance accounts record accountable advances to departments held on deposit in various banks in the name of the department concerned and certain travelling and imprest advances to public officers. During the fiscal year these advances are carried as charges to the relevant appropriations; if they are accounted for but not repaid at the year-end, they are cleared from the appropriation and debited to this account and at the beginning of the new fiscal year are cleared from the account and charged to the appropriation concerned. There was an increase in the account of \$3 million at the year-end.

The securities investment account records the temporary holdings by the government of its own securities at amortized cost (including Canada savings bonds at par for resale to subscribers under the government employees instalment purchase plan). Amortization is calculated to maturity date on securities purchased at a discount; and to call date, if one is given, otherwise to the date of maturity, on securities purchased at a premium. During 1960-61 there was an increase of \$23 million in the account.

Moneys received after March 31, but applicable to the current year, are recorded in a special asset account for accounting purposes in the current year's books and at the beginning of the new fiscal year are cleared from the account and debited to cash. There was a decrease of \$4 million in the balance at March 31, 1961 compared with the balance at March 31, 1960.

Advances to the exchange fund account

Advances during the year to the exchange fund account to finance the purchase of gold and foreign exchange amounted to \$388 million and repayments were \$324 million, increasing outstanding advances to \$2,024 million at March 31, 1961. Advances to the fund are shown in the statement of assets and liabilities with the market value of investments from advances on the basis of closing exchange rates as at the date of the statement noted in parenthesis. Thus, while advances to the fund were \$2,024 million at March 31, 1961, the market value of holdings at that date was \$1,870 million. At March 31, 1960 advances totalled \$1,960 million and holdings were valued at \$1,746 million.

Sinking fund and other investments held for retirement of unmatured debt

This category records the sinking fund for the redemption of the 3 per cent Newfoundland 1933/34-43/63 stock. At March 31, 1960, this category also included other investments of Newfoundland stock and some of the government's holdings of its own issues payable in New York. Under authority of Order in Council P.C. 1961-460 dated March 30, 1961, these other investments were cancelled. These cancellations, offset partly by an increase of \$1 million in the sinking fund, brought the balance at March 31, 1961 to \$17 million, a decrease of \$68 million during the year.

⁽²⁾ Less than \$50,000.

On the assumption by Canada, under the terms of Union, of the 3 per cent Newfoundland guaranteed stock, Canada also acquired the sinking fund already established. Each year £178,000 is paid into the sinking fund for the purchase of this stock. At March 31, 1961 the holdings in the fund were, in Canadian dollars, \$13 million of Newfoundland stock and \$4 million of United Kingdom conversion stock held temporarily until Newfoundland stock is available.

Pursuant to special arrangements with the Government of the United Kingdom, Canada accepted sterling as payment for Newfoundland codfish sold in European markets. These arrangements were discontinued in 1952. Moneys received from these sales were deposited to "N" fund account and used for the purchase of the 3 per cent Newfoundland stock as it became available. This stock, to the value of \$19 million, was cancelled under the authority of P.C. 1961-460, dated March 30, 1961.

The Newfoundland stock amounting to \$1 million and the New York loans amounting to \$50 million which were formerly held in other investments were also cancelled under authority of P.C. 1961-460.

Loans to, and investments in, Crown corporations

These loans and investments increased by \$181 million during 1960-61 bringing the balance at March 31, 1961 to \$3,628 million.

Advances to Atomic Energy of Canada Limited, to be covered by obligations or shares of the company, were \$61 million at March 31, 1961, an increase of \$2 million during the year.

In the fiscal year ended March 31, 1961, the government advanced to the Canadian National Railway Company \$108 million for capital purposes and retirement of debt in the hands of the public. Of this amount \$4 million was advanced for the company's purchase fund which is operated under the terms of Canadian National Railway Company bonds, guaranteed by the Government of Canada, issued on May 15, 1959, December 15, 1959, January 1, 1960 and October 1, 1960 and \$1 million was advanced to the company under the Refunding Act, 1955 for the refunding of various trust certificates. During the fiscal year ended March 31, 1961, repayment of current and prior years' advances totalled \$225 million, of which \$221 million was from the proceeds of the sale of Canadian National Railway Company bonds dated October 1, 1960.

In addition, to assist the company to finance further capital expenditure during the fiscal year, the government purchased \$21 million of four per cent preferred stock of the Canadian National Railway Company. This stock is issued under the the authority of the Canadian National Railways Capital Revision Act, 1952, in an amount equal to three per cent of the gross revenue of the company.

Further, in the year ended March 31, 1961, the government provided the company with temporary loans of \$56 million in respect of its 1960 income deficit. This amount plus temporary loans of \$14 million made on the same account in the previous fiscal year, less a repayment of \$3 million representing advances not required by the company brought the total loans on account of the 1960 deficit to \$67 million which was charged to budgetary expenditure in 1960-61. Also, in 1960-61, an accounting adjustment was made transferring to net debt \$8 million in respect of the company's 1958 income deficit, under authority of Vote 565 of Appropriation Act No. 6, 1960.

In addition temporary loans of \$2 million were made in February, 1961 to the company in respect of its 1961 income deficit.

In summary, the total amount made available to the company during the year was \$184 million and repayments amounted to \$300 million. The amount of advances to the company outstanding at March 31, 1961 was thus reduced by \$116 million.

At March 31, 1960, temporary loans of \$4 million were outstanding to the Trans-Canada Air Lines in respect of its 1960 income deficit. During 1960-61 further advances totalling \$2 million were made for this purpose. The total amount of \$6 million was repaid or credited during the year. However, the government made advances of \$5 million on account of the air line's 1961 income deficit and this amount was outstanding at March 31, 1961.

Loans during the year to Central Mortgage and Housing Corporation amounted to \$235 million, of which \$222 million was for direct loans by the corporation and \$13 million in respect of loans for federal-provincial housing projects. Repayments totalled \$43 million, of which \$38 million was in respect of direct loans, \$2 million in respect of loans for federal-provincial housing projects and \$3 million in respect of loans for housing projects. The net increase of \$192 million for the year brought the total loans to \$1,511 million at March 31, 1961.

Loans to the Farm Credit Corporation amounted to \$40 million and investment in the capital of the corporation amounted to \$1 million during the year. Repayments by the corporation of \$1 million, brought the outstanding advances to \$156 million at March 31, 1961.

Active advances to the National Harbours Board amounted to \$11 million during the year, bringing the amount outstanding to \$173 million at March 31, 1961. This balance represented all the outstanding advances to the board in connection with harbour developments at Montreal and Vancouver and a portion of those in respect of Three Rivers. In addition, non-active advances to the board amounted to \$1 million in connection with harbour developments at Quebec and Churchill, which were charged to net debt at the year-end.

Advances to The St. Lawrence Seaway Authority during the year were \$24 million bringing the total loans to \$321 million. In addition, deferred interest on these loans was \$19 million at the year-end, unchanged from the total at March 31, 1960. A contra item for this deferred interest is included in the liability category "Deferred credits".

Other changes in this category included increases of \$9 million in advances to the Canadian Overseas Telecommunications Corporation, \$7 million to the National Capital Commission and \$5 million to the Northern Canada Power Commission.

Loans to national governments

Loans to national governments which consist of a loan to the United Kingdom under the authority of the United Kingdom Financial Agreement Act, 1946, loans to other countries under Part II of the Export Credits Insurance Act, 1946, special loans to India and Ceylon to finance the purchase of wheat and flour from Canada and miscellaneous foreign loans totalled \$1,378 million at March 31, 1961, a decrease of \$36 million during the year.

During the fiscal year the United Kingdom Government repaid \$17 million on the \$1,185 million loan made under the \$1,250 million credit authorized by the United Kingdom Financial Agreement Act, 1946, reducing the principal outstanding at March 31, 1961 to \$1,047 million.

In 1957 the Government of the United Kingdom deferred the payment due December 31, 1957 of principal and interest on the above loan. The deferment of principal and interest was by an agreement between the Government of Canada and the Government of the United Kingdom that was approved by a 1957 Act to amend the United Kingdom Financial Agreement Act, 1946. The agreement, which became effective April 29, 1957, permits the United Kingdom in lieu of any right of waiver hitherto existing to defer after December 31, 1956, seven instalments of principal and interest under certain conditions. Principal and interest due December 31, 1957 was deferred. The first of any such deferred instalments is payable on December 31, 2001, and the others annually thereafter, in order. In addition it permitted the instalment of interest in respect of the year 1956 to be deferred and provided that this instalment of interest so deferred shall be paid on December 31 of the year immediately following the year in which the last of all other instalments, including those deferred, is due. Interest at 2 per cent is payable on deferred instalments of both principal and interest.

Repayments of advances under Part II of the Export Credits Insurance Act to certain foreign countries to assist them in purchasing goods and services in Canada amounted to \$15 million during the year reducing the balance at March 31, 1961 to \$253 million.

Special loans to India and Ceylon to finance the purchase of wheat and flour from Canada amounted to \$32 million at March 31, 1961, \$3 million less than at the previous year-end due to a repayment in that amount by the Government of India.

Miscellaneous loans and advances to foreign governments totalled \$2 million at March 31, 1961, \$1 million less than at March 31, 1960.

Other loans and investments

There was an increase of \$88 million in this category during the year bringing the balance to \$1,022 million at March 31, 1961.

There was an increase of \$26 million in Canada's subscription to the capital of, working capital advances and loans to, international organizations during the year due mainly to revaluation adjustments of \$15 million in the Canadian dollar balance in the international

monetary fund, a subscription of \$9 million to the international development association and an increase of \$3 million in the subscription to the capital of the international bank for reconstruction and development.

The accounts of the international monetary fund are maintained in terms of United States dollars; therefore, in order to keep Canada's subscription at the required amount, that portion represented by Canadian dollar balances is revalued quarterly and any settlement required is made annually as at April 30, the end of the fund's fiscal year. The increase of \$15 million reflected the settlement at April 30, 1960 and subsequent adjustments due to the quarterly revaluations.

A subscription of \$9 million, consisting of cash in the amount of \$2 million and non-interest bearing notes to the value of \$7 million, was made to the international development association in the fiscal year 1960-61 in accordance with section 4 of the International Development Association Act which was assented to on July 7, 1960.

The increase of \$3 million in Canada's subscription to the international bank for reconstruction and development was the amount required to cover the balance owing by Canada in connection with the increase in the capital of the bank as authorized by Order in Council P.C. 1959-1053 dated August 18, 1959.

Loans to provincial governments were reduced by \$5 million and overpayments to certain provinces arising out of the 1952 tax rental agreements by \$1 million during the year.

Advances under the Veterans Land Act increased by \$11 million. The reserve for conditional benefits under the Act decreased by \$4 million and consequently the total increase in this account was \$15 million.

Miscellaneous loans and advances increased by \$53 million during the fiscal year 1960-61 due mainly to loans of \$67 million to the Unemployment Insurance Commission which were outstanding at March 31, 1961 (there were no loans outstanding at March 31, 1960) offset partly by a decrease of \$11 million in loans to the old age security fund.

Securities held in trust

This category records the security holdings of various deposit and trust, and annuity, insurance and pension accounts. Bonds and certified cheques held in connection with contractors' securities included in the deposit and trust category are also recorded under this heading. The balance at March 31, 1961 was \$30 million, about \$1 million less than the previous year-end balance.

Deferred charges

This category consists of the unamortized portions of actuarial deficiencies in the Canadian forces superannuation account and the public service superannuation account, and the outstanding balance of unamortized loan flotation costs.

Unamortized portions of actuarial deficiencies

Under this heading are recorded the unamortized portions of the actuarial deficiencies in the public service and the Canadian forces superannuation accounts which have been set up as deferred charges to be written off to budgetary expenditure upon parliamentary approval.

During the year, \$138 million was credited to the public service superannuation account in accordance with an actuarial evaluation as at December 31, 1957 and an equivalent amount was set up in this account as a contra item.

The deficiency in the Canadian forces superannuation account was based on the actuarial valuation made as at March 31, 1958.

Unamortized loan flotation costs

In this account are recorded the residual balances of discounts, commissions, redemption bonuses and conversion premiums on loan flotations that have not been charged to expenditures. There was a decrease of \$20 million in this category during the year, bringing the balance at March 31, 1961 to \$131 million.

Costs of new loans issued during 1960-61 and charged to the account were \$34 million, of which \$11 million was in respect of discounts on treasury bills which will be charged to interest on public debt in 1961-62. Credits to the account amounted to \$54 million of which \$39 million was charged to annual amortization costs and \$15 million, representing discount on treasury bills sold in 1959-60, was charged to interest on public debt in the 1960-61 budgetary expenditure accounts.

Suspense accounts

The only item in this category is the cheque adjustment suspense account which reflects unadjusted balances resulting from the reconciliation of payments for redemption of paid cheques with the amount of those cheques as subsequently determined in adjustment of the outstanding treasury cheque account.

Capital assets

Assets of the government such as land, buildings, works and equipment, etc., that are charged to budgetary expenditure at the time of acquisition or construction, are included in this category and are shown on the statement of assets and liabilities at a nominal value of \$1.

Inactive loans and investments

Loans and investments which are not currently revenue-producing or realizable are recorded in this category. Included are the loan of \$49 million to China under the Export Credits Insurance Act, loans of \$24 million and \$7 million made to Roumania and Greece in 1919-20 and 1920-21 and advances of \$15 million in respect of the implementation of guarantees (Ming Sung Industrial Company Limited).

Reserve for losses on realization of assets

There was no change in this reserve during the year. The balance at March 31, 1961 remained at \$546 million.

D. INCREASE IN NET DEBT

At March 31, 1961 the net debt of Canada, which is the excess of gross liabilities over the recorded net assets, or, in effect, the accumulated overall deficit since Confederation, amounted to \$12,437 million compared with \$12,089 million at March 31, 1960.

The budgetary deficit of \$340 million for the fiscal year 1960-61 plus an accounting adjustment of \$8 million in respect of prior years' transactions in connection with the Canadian National Railways 1958 deficit resulted in an increase of \$348 million in the net debt of Canada during the fiscal year.

E. CONTINGENT LIABILITIES

In addition to its direct liabilities which are reflected in the statement of assets and liabilities of Canada, the government has assumed certain contingent liabilities, the details of which are set out in the section of this survey "The Public Debt" and also on page 161.

The major categories of this indirect or contingent debt are the guarantee of insured loans under the National Housing Act, guaranteed bonds and debentures of the Canadian National Railways and the guarantee of deposits maintained by the chartered banks in the Bank of Canada. The remainder consists chiefly of guarantees of loans made by chartered banks to the Canadian Wheat Board and to farmers and veterans for certain authorized purposes and guarantees under the Export Credits Insurance Act.

6. THE CASH POSITION

The government's cash position is affected not only by the budgetary transactions but also by changes in the government's outstanding unmatured debt and other non-budgetary transactions. In 1960-61 there was a decrease of \$71 million in the government's bank balances. This decrease was the result of the budgetary deficit of \$340 million offset in part by an increase of \$223 million in outstanding unmatured debt (after taking into account transactions in the securities investment and sinking fund accounts) and the net receipts of \$46 million from other non-budgetary transactions.

Non-budgetary receipts and disbursements relate to transactions which result in increases or decreases in the government's assets and liabilities and do not appear in what might be called the government's income account for the fiscal year nor do they enter into the calculation of the annual budgetary surplus or deficit. However, in considering the full scope of the government's financial operations and in measuring their effect on the government's cash position and their impact on the economy, non-budgetary as well as budgetary transactions must be taken into account.

The increases or decreases in the government's assets and liabilities have been described in detail in the section entitled "Statement of Assets and Liabilities of Canada". On the assets side the non-budgetary transactions consist, for the most part, of loans and advances to, and repayments by, Crown corporations and other government agencies and funds (including the old age security fund), national, provincial and municipal governments, international organizations, veterans and other borrowers. On the liabilities side they relate mainly to receipts and payments in connection with the many deposit and trust accounts, and annuity, insurance and pension funds held or administered by the government.

The following statement summarizes both the budgetary and non-budgetary transactions for 1960-61 and indicates how they affect the government's cash position. For purposes of comparison the corresponding figures for 1959-60 are also shown.

As the table shows, non-budgetary receipts and credits for 1960-61 (excluding unmatured debt transactions) totalled \$699 million while non-budgetary disbursements and charges (also excluding unmatured debt transactions) amounted to \$653 million, resulting in a net receipt of \$46 million from non-budgetary transactions. As there was a budgetary deficit of \$340 million, \$294 million required financing by an increase in unmatured debt or a decrease in cash balances. In 1959-60 there was a net receipt of \$38 million from non-budgetary transactions and for the same period there was a budgetary deficit of \$413 million resulting in \$375 million having to be financed by an increase in unmatured debt or a decrease in cash balances.

Non-budgetary receipts and credits, as already indicated, totalled \$699 million in 1960-61. Repayments of loans, investments and working capital advances were \$211 million and included \$30 million in respect of the agricultural commodities stabilization account, \$116 million from the Canadian National Railways, \$11 million in respect of temporary loans to the old age security fund, \$17 million from the United Kingdom government on account of the Financial Agreement Act, 1946 and \$15 million from other national governments on loans made under Part II of the Export Credits Insurance Act. Net government annuities account receipts were \$42 million and net insurance and pension accounts receipts were \$353 million (including an accounting adjustment of \$138 million with respect to the actuarial deficiency in the public service superannuation account). Net receipts and credits in various other accounts amounted to \$93 million.

Non-budgetary disbursements and charges amounted to \$653 million. Loans, investments and working capital advances were \$484 million and included \$9 million to the Canadian Overseas Telecommunication Corporation for investment in various cable projects, \$192 million to the Central Mortgage and Housing Corporation for the purpose of making housing loans, \$40 million to the Farm Credit Corporation for the purpose of making loans to farmers, \$64 million to the exchange fund account, \$7 million to the National Capital Commission for the purpose of acquiring land in the national capital area not required for immediate use, \$11 million to the National Harbours Board for construction and capital expenditures, \$24 million to The St. Lawrence Seaway Authority for costs in connection with the construction of the seaway, \$24 million in respect of subscriptions to the international monetary fund and the international development association, and \$67 million to the Unemployment Insurance Commission to finance the requirements of the unemployment insurance fund not otherwise financed by the sale of the fund's investments. Other non-budgetary disbursements and charges amounted to \$169 million, including an accounting adjustment of \$138 million in respect of the unamortized portion of the actuarial deficiency in the public service superannuation account.

In summary, as budgetary and non-budgetary transactions during 1960-61 required financing in the amount of \$294 million, and unmatured debt outstanding in the hands of the public (after taking into account transactions in the securities investment and sinking fund accounts) increased by \$223 million, cash balances on deposit with the banks decreased by \$71 million.

7. THE PUBLIC DEBT

Gross and net debt

The gross debt of Canada amounted to \$21,603 million at March 31, 1961. Of this total, \$16,068 million or approximately 74 per cent consisted of unmatured bonds and treasury bills the details of which are shown in Appendix No. 4 of this volume. The remaining liabilities, consisting of current and demand liabilities, deposit and trust accounts, annuity, insurance and pension accounts, undisbursed balances of appropriations to special accounts, deferred credits and sundry suspense accounts, aggregated \$5,535 million or approximately 26 per cent of the total debt.

The total unmaturred debt of Canada at March 31, 1961 was \$16,068 million, \$178 million more than at the end of the previous fiscal year. During the fiscal year the government's holdings of its own securities in the sinking fund decreased by \$68 million while those in the securities investment account increased by \$23 million. The net increase in the amount of outstanding unmaturred debt in the hands of the public was \$223 million. Interest charges in 1960-61 on unmaturred debt were \$611 million compared with \$601 million in 1959-60.

The gross national product rose from \$30,585 million in 1956 to \$34,857 million in 1959 and to \$35,959 million in 1960, an increase of 18 per cent over 1956 and an increase of 3 per cent over 1959. The relative burden, therefore, of the unmaturred debt measured in terms of interest charges as a percentage of the gross national product was 1.7 per cent in 1960-61, compared with 1.7 per cent in 1959-60 and 1.4 per cent in 1956-57.

Of the total unmaturred debt \$15,938 million or more than 99 per cent was payable in Canada. In terms of Canadian currency the unmaturred debt payable in London and New York amounted to \$130 million at the end of 1960-61.

Interest rates

The average interest rate on the government's unmatured debt at March 31, 1961 was 3.91 per cent compared with 3.98 per cent at the end of the previous fiscal year, reflecting lower treasury bill yields offset partly by a fractional increase in interest rates of Canada savings bonds and marketable bonds.

The following table sets out the unmatured debt outstanding at March 31 for each of the fiscal years 1957 to 1961 inclusive, with the average rate of interest thereon. For purposes of comparison the unmatured debt is classified as to marketable bonds, Canada savings bonds and treasury bills.

The above statement has been examined in accordance with the provisions of the Financial Administration Act. I have obtained all the information and explanations that I have required, and I certify that the statement is in agreement with the accounts maintained by the Department of Finance, and is, in my opinion, correct, subject to the comments in my report to the House of Commons.

NOTES TO STATEMENT OF ASSETS AND LIABILITIES AS AT MARCH 31, 1961

The increase in net debt of \$347,921,092 reflects the budgetary deficit of \$340,421,092 plus an adjustment of \$7,500,000 in respect of prior years' transactions.

The liability of \$3,955,509,445 in respect of annuity, insurance and pension accounts does not include any provision for additional liabilities resulting from salary and pay increases during the fiscal year; the amounts involved are estimated by the Department of Insurance at \$80,700,000 for the Public Service Superannuation Account, \$79,050,000 for the Canadian Forces Superannuation Account, and \$1,760,000 for the Royal Canadian Mounted Police Superannuation Account.

Indirect or contingent liabilities consisting of securities guaranteed by, or other guarantees given by the Government of Canada, are listed on page 161.

Explanations regarding the general nature of the items in the Statement of Assets and Liabilities

ASSETS

1. (a) Cash represents balances of current and special deposits at credit of the Receiver General of Canada in banks in Canada, London, New York, Paris and Bonn, blocked currency deposits in Spain and cash in hands of collectors and in transit. Blocked currency may be used only for certain governmental purposes in the country of origin. Cash in hands of collectors and in transit represents moneys received by public officers on or before March 31 but not deposited to the credit of the Receiver General of Canada until after that date.
1. (b) Departmental working capital advances and revolving funds constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments.
1. (c) This shows the temporary holdings by the Government of Canada of its own securities at amortized cost (including Canada savings bonds at par for resale to subscribers under the government employees instalment purchase plan).
1. (d) This category includes moneys received after March 31, but applicable to the current year, and Post Office moneys in hands of collectors and in transit at March 31.
2. These are advances to finance the purchase of gold and foreign exchange. The value of investments from advances on the basis of closing exchange rates on March 31 is also shown in parentheses.
3. This category records the cash and securities held by the government for the eventual retirement of the 3 per cent Newfoundland stock 1933/34-43/63 and, in addition, reflects the acquisition by the government of bonds of its own issues payable in New York.
4. Loans to, and investments in, Crown corporations represent the government's outstanding advances to Crown corporations for working capital, capital expenditure and other purposes, investment in the capital of corporations and advances to corporations for relending.
5. Loans to national governments consist mainly of the loan to the Government of the United Kingdom under the authority of the United Kingdom Financial Agreement Act, 1946 and loans to foreign countries under the Export Credits Insurance Act for purchase of goods and services in Canada.
6. (a) This category records Canada's subscription to the capital of the international bank for reconstruction and development, the international development association, the international finance corporation and the international monetary fund. The subscription to the international bank for reconstruction and development consists of Canadian dollars and United States dollars; to the international development association, of United States dollars and non-interest bearing promissory notes; and to the international monetary fund of gold, Canadian dollars, United States dollars and non-interest bearing promissory notes. The notes, which are payable on demand, are carried in the Statement of Assets and Liabilities under "Current and demand liabilities". This category also includes working capital advances and loans to international organizations representing Canada's equity in the various organizations.
6. (b) Under this heading are loans to provinces originally made under Relief Acts and other legislation, and overpayments arising out of 1952 tax rental agreements.
6. (c) This account records the cost of the acquisition of properties, building materials, live stock, farm equipment and commercial fishing equipment for purposes of the Act for sale to qualified veterans of world war 2 and Korea, under sale agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans.
6. (d) This category is composed of miscellaneous loans and balances receivable.
7. This category records the security holdings of various deposit and trust and annuity, insurance and pension accounts.

8. (a) These accounts record the unamortized portions of the actuarial deficiencies in the public service superannuation account and the Canadian forces superannuation account which have been set up as deferred charges to be written off to budgetary expenditure upon parliamentary approval.
8. (b) This account consists of discounts, commissions, redemption and conversion premiums on loan flotations remaining to be charged annually to expenditure. These costs are amortized in the case of general loans, over the period from the date of issue to the earliest call date, if one is specified, otherwise to the maturity date of the loan, and in the case of Canada savings bonds over half the unexpired period to maturity date for existing loans at March 31, 1955 and over a period of five years from date of issue for subsequent loans.
9. The only item in this category is the cheque adjustment suspense account.
10. This records at a nominal value of \$1 such capital assets of the government as land, buildings, works, equipment, etc., which, in accordance with long standing practice, are charged to budgetary expenditures at the time of acquisition or construction.
11. This group includes loans and advances which are not currently revenue-producing or realizable.
12. This reserve is provided for losses on realization of assets.

NET DEBT

13. The net debt of Canada is represented by the excess of liabilities over the recorded net assets or, in effect, the accumulated deficit since Confederation.

LIABILITIES

14. (a) This is the balance of treasury cheques issued and unpaid on March 31, with the exception of those outstanding for ten years or more, which have been transferred to non-tax revenue—refunds of previous years' expenditure.
14. (b) This account represents the treasury cheques issued in April which are applicable to the previous fiscal year as authorized by section 35 of the Financial Administration Act.
14. (c) This account records the non-interest bearing notes in respect of Canada's subscription to the capital of international organizations.
14. (d) This item represents the amount of matured bonds and other securities outstanding on March 31, with the exception of those transferred to revenue. In the fiscal year 1958-59 a new practice was introduced of transferring to non-tax revenue—miscellaneous, those matured bonds and other securities which were outstanding for 15 years after the date of call or of maturity, whichever is the earlier, but in no event less than five years after the date of maturity.
14. (e) This represents the amount of interest which has become due on the public debt but remains unpaid.
14. (f) This represents the amount of accrued interest to March 31, on the public debt but which is not due and payable until some future date.
14. (g) This group includes miscellaneous liabilities of the Government of Canada. Generally the creditor is in possession of some form of the government's negotiable paper that is due and payable on demand. The liability for post office money orders is the main item in this group.
15. The accounts in this category represent the government's liability for moneys deposited for various purposes. They fall into two broad classes. The first of these is the deposit accounts which cover mainly those cases where the government has received the moneys as a guarantee that work will be properly performed. The other class, comprising the large majority of the accounts, consists of those cases where the government acts virtually as trustee, administering the funds for the purposes for which they were created.
16. This category records the government's liability as an insurer of certain persons and as administrator of certain pension funds and government annuities. The government receives premiums or similar assessments and in turn pays out specific benefits. There is also included the uninvested portion of the unemployment insurance fund administered by the Unemployment Insurance Commission.
17. This category records the undisbursed balances of appropriations to special accounts for which moneys have been appropriated by Parliament and from which disbursements may be made for authorized purposes.
18. This category records those accounts which reflect amounts due to the government but in respect of which payment has been deferred. These are contra accounts to corresponding items in the assets.
19. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposal and certain credit balances in respect of which accounting treatment is known but which are held for final disposition pending completion of certain conditions.
20. This account shows the unmatured debt of the Government of Canada.

Accounts in connection with Account N were established pursuant to special arrangements with the Government of the United Kingdom under which sterling was acquired as payment for Newfoundland codfish sold in European markets. This arrangement was discontinued in 1952 and the total of sterling accumulated in N account (which was held in addition to the sinking fund for the eventual retirement of the 3 per cent 1933-63 stock) was invested in 3 per cent Newfoundland guaranteed stock 1933-63. Stock held in this account was cancelled effective January 1, 1961 under authority of Order in Council P.C. 1961-460 dated March 30, 1961. Unmatured debt was reduced accordingly. Interest earnings on N account were deposited in the Receiver General current deposit, London, and credited to non-tax revenue—return on investments.

- 2 These accounts reflected Government of Canada bonds acquired by the government prior to maturity. Order in Council P.C. 1961-460 dated March 30, 1961 authorized the cancellation of these holdings as follows: Newfoundland guaranteed stock, 1933-63 cancelled effective January 1, 1961; New York loan, 1949-74 cancelled effective March 1, 1961; and New York loan, 1950-75 cancelled effective March 15, 1961. Unmatured debt was reduced accordingly.

1 These accounts reflect Canada's subscriptions to the international monetary fund and to the international bank for reconstruction and development. Subscriptions consisted of gold, Canadian dollars, United States dollars, and non-interest-bearing notes which are carried as a liability on the statement of assets and liabilities of the Government of Canada under the heading "Current and demand liabilities".

The accounts of the international monetary fund are maintained in terms of United States dollars, therefore in order to keep Canada's subscription at the required amount that portion represented by the Canadian dollar balance is revalued quarterly on July 31, October 31, January 31 and April 30. Any settlement required is made annually as at April 30, the end of the fund's fiscal year. If the revaluation results in an amount owing to Canada it is carried in the governments books of account under the current asset category or if it is an amount owing to the fund it is carried in the governments accounts as a current and demand liability. At March 31, 1960 the revaluation adjustment was carried as a current asset (see schedule C) and at March 31, 1961 it was carried as a current and demand liability (see schedule L). Revaluation adjustments during the year resulted in a net charge of \$14,967,732 to Canada.

2 This covers Canada's subscription under the International Development Association Act.

3 This account records the purchase of 3,600 shares of stock of the international finance corporation for the amount of \$3,522,375 under authority of Vote 731, Appropriation Act No. 6, 1956.

4 These items represent the Canadian Government's equity in the working capital funds of international organizations.

The Canadian Government's assessment in respect of the Intergovernmental Maritime Consultative Organization for 1961 was reduced by \$48.

The Canadian Government's assessment in respect of the International Atomic Energy Agency for 1961 was reduced by an amount of \$198 which was received by the agency.

The Canadian Government's assessment to the International Civil Aviation Organization was reduced by an amount of \$17,851 to be refunded in equal instalments of \$2,975 over a six-year period beginning January, 1959. The third instalment less an increase of \$2,250 to the working capital fund resulted in a net refund of \$725. The working capital fund was further reduced by an amount of \$9,508, which covered the net amount of withdrawals for the International Civil Aviation Organization general fund for the period 1953-54 to 1957-58 less interest and operating surpluses for the same period.

Interest for the period April 1, 1959 to March 31, 1961 in the amount of \$7,010 earned on Canada's equity in the working capital fund operated by the International Labour Organization was debited hereto and credited to non-tax revenue—return on investments.

Canada's equity in the working capital fund operated by UNESCO was increased by \$2,079 due to a redistribution of the equity in the fund. This amount was debited hereto and credited to non-tax revenue—return on investments.

In 1955-56 the United Nations took over the assets of the former League of Nations. Canada's share of the fixed assets amounted to \$458,876 U.S. which the United Nations agreed to refund to Canada in eleven yearly instalments of \$41,716 U.S. beginning 1949. The instalment for 1960-61 amounting to \$41,260 Can. was recovered by deduction from the assessment to the operational budget of the United Nations for 1960-61.

A loan to the United Nations re clearing the Suez canal in the amount of \$1,000,000 was authorized by Vote 545, Appropriation Act No. 1, 1957. Repayments to date amounted to \$736,418.

- 6 These accounts recorded advances made to the Governments of Nova Scotia and Prince Edward Island in respect of loans made by those governments to fishermen for the purpose of replacing abnormal losses of equipment suffered in the 1951-52 and 1953 fishing seasons. Vote 765, Appropriation Act No. 3, 1953, Vote 631, Appropriation Act No. 2, 1954 and Vote 627, Appropriation Act No. 2, 1955 provided for the advances. Repayment of \$119 was received during the year from the Province of Nova Scotia.

P.C. 1960-5/912, July 7, 1960 granted authority to suspend collection action on the total of the two loans made to the Government of the Province of Nova Scotia and on the outstanding balance of the loan made to the Government of the Province of Prince Edward Island; suspension of collection action being conditional upon the suspension of collection action in turn by the two provincial governments. The balances of \$121,633 and \$69,353, respectively, were subsequently deleted from the accounts as provided by Vote 681—see section 11—Department of Finance. These amounts were credited hereto and charged to Vote 681.

The decrease represents the second repayment. Interest was received and credited to non-tax revenue—return on investments.

- 8 By agreement with the Province of Saskatchewan, dated July 25, 1958, certain of the expenditures on the South Saskatchewan River project are shareable with the province. The province's share for the fiscal year 1959-60 was \$1,233,803 and an amount of \$1,126,773 was received during the year (half by treasury bills) and credited to this account.

The Province of Saskatchewan's share for 1960-61 amounted to \$2,582,988. This was initially charged to Votes 31 and 32 and later transferred to this account.

This account also records treasury bills received as payment of the province's share of certain expenditures on the South Saskatchewan River project.

- 17 *Avro Aircraft Limited*.—T.B. 504490, July 27, 1956 authorized the sale of certain Crown-owned machine tools and equipment at Malton, Ont., to the company for the estimated sum of \$3,768,133, payment to be made as follows:

One third of the purchase price on or before July 27, 1956 and the balance of the purchase price in ten annual instalments, each of which shall become payable on or before the 27th day of July in the calendar years 1957 to 1966 inclusive, it being understood and agreed that the company may at any time in its discretion prepay such instalment payments without notice or bonus and it is further understood and agreed that each such instalment shall consist of the greater of:

- (i) an amount equal to the quotient resulting from the division of any balance of such purchase price which may be unpaid on any of such dates by the numbers of such instalments then remaining to be paid; or
- (ii) an amount equal to the amount, if any, of income taxes which the company shall not become obligated to pay under the provisions of the Income Tax Act and pertinent Regulations of Canada for the company's fiscal year immediately prior to the annual period for which the instalment payment is owing, by sole reason of the fact that the company shall be permitted to deduct, in computing its income for such fiscal year, additional capital cost allowances in respect of the assets to be sold under this agreement, plus the amount by which the normal capital cost allowance for these assets allowed as an element of cost through overhead for the preceding fiscal year exceeds the value of Crown approved capital expenditures made by the company during the preceding fiscal year.

Any balance of the purchase price remaining unpaid shall bear interest computed at 5 per cent per annum and such interest shall be payable on or before the 27th day of July of each year; unpaid interest shall be treated as principal and shall bear interest accordingly.

- 17 Section 11 of the National Defence Act, c. 184 R.S., as amended, provides that the Governor in Council may authorize the Minister to deliver to any department or agency of the Government of Canada any materiel that has not been declared surplus and that is not immediately required for the use of the Canadian forces or the Defence Research Board or for any other purposes under this Act, for sale to such countries on such terms as the Governor in Council may determine. The proceeds of such sales are to be paid into a special account in the Consolidated Revenue Fund and, subject to the approval of the Governor in Council, shall be used for the procurement of materiel; and payments out of the special account shall be made by the Minister of Finance on the requisition of the Minister of National Defence. Proceeds from such sales amounting to \$3,962,668 were credited to this account during the fiscal year. As pensions to these men are a direct charge to the Consolidated Revenue Fund, the amount to the credit of each man is transferred to revenue when he is pensioned. Withdrawals also represent payments to time-expired personnel not eligible for pension.
- 20 P.C. 1958-146, January 25, 1958, authorized the general radio regulations which provide that applications for a first licence for a private commercial broadcasting station licence be accompanied by a deposit of \$100 or \$500 depending on the power of the station. The amounts so received are credited to this account pending approval of the Board of Broadcast Governors and the issuance of an order-in-council in accordance with the Broadcasting Act or the rejection of the application. The deposits are then either transferred to non-tax revenue—privileges, licences and permits, as a payment on account of a licence fee or are returned to the applicant.

| Expenditures | (20) | <u>\$ 3,513,869</u> |

When the sale of the carcass is unlawful, the Act also provides for additional compensation to be paid in respect of carcasses of animals slaughtered for the reason that they were affected with bovine tuberculosis. | Expenditures | (20) | <u>\$53,440,797</u> |

The above amount which was credited to the agricultural commodities stabilization account (see under the schedule, Departmental Working Capital Advances and Revolving Funds, in Volume I of this report) includes the net operating loss of the Board for the year ended March 31, 1961, \$50,776,295 which is detailed in Appendix 1 to this section and an amount of \$2,664,502 which was carried forward from 1959-60.

The inventory of the Board's commodities was under valuated, hence the amount provided in this vote was in excess of the actual loss sustained.

| Payment of carrying costs of temporary wheat reserves owned by the Canadian Wheat Board, the Temporary Wheat Reserves Act, c. 2, 1956 | (20) | <u>\$48,155,103</u> |
|---|------|---------------------|

The above statutory authority provides that where, after July 31, 1955, the stocks of wheat of the Canadian Wheat Board exceed one hundred and seventy-eight million bushels at the commencement of a crop year, the Minister of Finance shall, out of the Consolidated Revenue Fund, pay to the Board for each day in that crop year an amount equal to the portion of the said stocks that exceeds one hundred and seventy-eight million bushels at the commencement of that crop year, multiplied by the carrying charge

rate paid by the Board at the end of the immediately preceding crop year. If at the commencement of a crop year the stocks of wheat of the Board are not in excess of one hundred and seventy-eight million bushels, no payment shall be made by the Minister of Finance to the Board under this Act in respect of that or any subsequent crop year.

The stocks of wheat of the Canadian Wheat Board as at July 31, 1960 amounted to 454,830,451.7 bushels and, after the deduction of 178,000,000 bushels as required by section 3 of the Act, the balance of stocks on which payment is based is 276,830,451.7 bushels. The total amount due the Board is \$50,430,619 which is the amount arrived at by multiplying the balance of stocks of 276,830,451.7 bushels by the carrying charge of .04991 cents per bushel per diem for the period August 1, 1960 to July 31, 1961.

The above amount represents the balance of payments for the crop year 1959-60 in the amount of \$14,534,690 and payments to March 31, 1961 for the crop year 1960-61 in the amount of \$33,620,413.

Payments in connection with the Prairie Grain Advance Payments Act, c. 2, 1957-58,

as amended (20) \$ 1,297,145

Section 15 of the Prairie Grain Advance Payments Act provides for payment to the Canadian Wheat Board of (a) interest charges paid or payable by the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and (b) amounts of advance payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefor after default.

The above amount consisted of interest charges of \$1,308,438 paid under section 15 (a) of the Act less \$11,293 representing refunds of collections made by the Canadian Wheat Board on defaulted accounts for the 1957-58 crop year. Cumulative payments to March 31, 1961, in respect of interest charges, were \$2,863,090 and in respect of defaulted accounts, were \$50,241 (amends reporting in Public Accounts, 1959-60). Refunds to March 31, 1961 in respect of defaulted accounts were \$33,415.

Payments in connection with the Prairie Grain Provisional Payments Act, c. 2, 1960.. (20) \$ 16,983

Section 3 (1) of the Prairie Grain Provisional Payments Act authorized the Canadian Wheat Board to make provisional payments for the 1959-60 crop year in respect of future deliveries of unthreshed grain and section 8 (1) provides that, for the purpose of making such payments, the Board may borrow money, and the Minister of Finance may, on behalf of Her Majesty, guarantee, on such terms and conditions as the Governor in Council may approve, repayment of money so borrowed and interest thereon.

The above amount covering interest charges for the period April 1, 1960 to March 31, 1961, was paid under section 8 (1) of the Act.

BOARD OF GRAIN COMMISSIONERS FOR CANADA

AUDITOR GENERAL OF CANADA

Ottawa, October 18, 1961.

THE CHAIRMAN AND MEMBERS,
BOARD OF GRAIN COMMISSIONERS FOR CANADA,
WINNIPEG, MANITOBA.

I have examined the accounts and financial records of the Board of Grain Commissioners for Canada for the year ended March 31, 1961.

The Board of Grain Commissioners was established in 1912 and operates under the authority of the Canada Grain Act, Chapter 25, R.S. 1952 as amended. In compliance with section 23 of the Canada Grain Act, the annual report summarizing the major activities of the Board for the year ended December 31, 1960, was submitted to the Minister of Agriculture under date of January 13, 1961. The report includes information and statistics relating to grain handlings for the crop year August 1, 1959 to July 31, 1960 and expenditures and revenue for the fiscal year April 1, 1959 to March 31, 1960. As required by statute the Regulations made by the Board are published in consolidated form in the Canada Gazette during the month of August each year.

For accounting and financial control purposes, the Board operates in the same manner as a government department—the gross expenditures of the Board being provided by appropriation of Parliament, with the gross revenue being deposited in the Consolidated Revenue Fund. In this manner, the Expenditures and Revenues of the Board are included in the Expenditures and Revenues of Canada, which are certified by the Auditor General.

The attached Statement of Expenditure and Revenue (Exhibit I) shows a comparison, by branches, of the expenditures with the revenues of the Board. Operations for the year under review resulted in an excess of expenditure over revenue of \$2,221,603, compared with \$1,797,652 in the previous year.

Costs of the various services provided by the Board have been rising constantly over the years, but the fees have not been revised for weighing since 1920 and for inspection since 1949. The result is reflected in annual deficits, having almost doubled within the last seven years, as will be noted from the tabulation which follows.

| Year | Excess of Expenditure over Revenue |
|---------------|---------------------------------------|
| 1960-61 | \$ 2,221,603 |
| 1959-60 | 1,797,652 |
| 1958-59 | 1,678,100 |
| 1957-58 | 1,738,460 |
| 1956-57 | 1,045,217 |
| 1955-56 | 1,286,277 |
| 1954-55 | 1,122,564 |

Mention should be made at this point that no changes were made during the year under review in the level of fees charged by the Board for weighing and for inspection. In my report for the fiscal year ended March 31, 1960 it was noted that while we understood that an upward revision of certain fees had been under consideration, no action had been taken. In commenting on the operations of the Board in my report to the House of Commons for the fiscal year ended March 31, 1960, brief reference was made to this effect. As the members of the Board are no doubt aware, this matter was considered by the Standing Committee on Public Accounts at its meeting on June 19th, as a result of which the Committee, in expressing its concern at the existence of the wide gap between revenues and expenditures, recommended in paragraph 88 of its Fifth Report to the House of Commons that steps be taken to bring revenues and expenditures into balance.

BOARD OF GRAIN COMMISSIONERS FOR CANADA—Continued

EXPENDITURE

Funds for the expenditures of the Board were provided by Parliamentary Appropriations 396, 397, 554 and supplements by allotments from Vote 121, with the following results:

| | Appropriation | Voted | Expended | Lapsed |
|-----------|---|---------------------|---------------------|------------------|
| Statutory | Salaries of the Commissioners | 41,942 | 41,942 | |
| 396 | Administration | 159,075 | | |
| | Allotment for salaries from Vote 121 | 10,125 | | |
| | | 169,200 | 163,713 | 5,487 |
| 397 and | Inspection and Weighing of Grain, etc. | 4,342,071 | | |
| 554 | Allotment for salaries from Vote 121 | 280,000 | | |
| | | 4,622,071 | 4,531,864 | 90,207 |
| | | <u>\$ 4,833,213</u> | <u>\$ 4,737,519</u> | <u>\$ 95,694</u> |

The following is a summary of the various classes of expenditure compared with the corresponding amount for the preceding year:

| | 1960-61 | 1959-60 | Increase (Decrease) |
|---------------------------------|---------------------|---------------------|------------------------|
| Salaries, allowances, etc. | 4,135,401 | 3,816,842 | 318,559 |
| Rent | 183,635 | 185,322 | (1,687) |
| Travel | 137,233 | 137,002 | 231 |
| Printing and stationery | 58,785 | 57,396 | 1,389 |
| General expenses | 222,465 | 206,014 | 16,451 |
| | <u>\$ 4,737,519</u> | <u>\$ 4,402,576</u> | <u>\$ 334,943</u> |

The amount of salaries, allowances, etc., shown above at \$4,135,401 includes for the year under review the statutory salaries of the Commissioners of \$41,942 for the reason that these represent part of the cost of administering the Canada Grain Act, and it is proposed to include these salaries in the cost in this manner in future years. The remainder of the increase over the 1959-60 figure, which therefore amounted to \$276,617, is due almost entirely to the upward revision of salaries which was granted to all government employees in 1960.

The increase in general expenses of \$16,451 arose out of an increase of \$42,658 in Research Laboratory expenses mainly due to the installation of new equipment costing approximately \$40,000, and a decrease of \$26,869 in Inspection Branch expenses.

REVENUE

Revenue for the year totalled \$2,515,916, a decrease of \$89,008 from the previous year's revenue of \$2,604,924. The following is a summary, by main sources, for the past two years:

| | 1960-61 | 1959-60 | Increase (Decrease) |
|---------------------------------------|---------------------|---------------------|------------------------|
| Inspections | 1,616,111 | 1,673,467 | (57,356) |
| Weighing | 821,274 | 851,266 | (29,992) |
| Grain Appeals | 3,495 | 4,365 | (870) |
| Registrations and Cancellations | 43,622 | 46,319 | (2,697) |
| Licenses | 28,938 | 29,370 | (432) |
| Sundry | 2,476 | 137 | 2,339 |

BOARD OF GRAIN COMMISSIONERS FOR CANADA—Continued

INSPECTION AND WEIGHING FEES

Fees charged for the various inspection and weighing services performed by officers and employees of the Board, as set out in the Board's Regulation No. 16, are, for the most part, based on volume. The main fees for the inspection of grain are: \$2.00 per railway car in carload lots; \$2.00 per thousand bushels on delivery to vessels or sacking bins, and in wagon or truckload lots; and \$1.00 per thousand bushels for off-grade grain, weighovers and bin transfers. The fees for the weighing of grain are one-half that for the inspection of grain. The decrease in inspection and weighing revenue is due primarily to a reduction in the volume of grain handled. In addition to the usual verification of accounting entries recording these fees, total revenue was reconciled with the statistical record of volume of grain handled maintained by the Statistics Branch.

GRAIN APPEALS

There were 1,298 appeals from the decision of the Inspecting Officer during the year. The Appeal Board upheld the grade in 1,165 cases, and, in accordance with Board Regulation No. 9, a fee of \$3.00 was collected in each of these cases.

REGISTRATIONS AND CANCELLATIONS

Fees for the registration and cancellation of warehouse receipts required to be issued by section 127 of the Canada Grain Act, amounted to \$43,622.

The "Registration" fee set out by Board Regulation No. 16 is four cents per thousand bushels in the Western Division and one cent per thousand bushels in the Eastern Division. A similar fee is prescribed for "Cancellation" of warehouse receipts.

The year's revenue was reconciled with the record of Registrations and Cancellations maintained by the Registration Branch.

LICENSES

Nine classes of licenses are issued by the Board on payment of fees set out by the Canada Grain Act. These are:

| Class | Authority Canada Grain Act Section | Fee |
|--------------------------------|--|---------|
| Mill Elevator | 97 | \$ 5.00 |
| Public Country Elevator | 105 | 5.00 |
| Private Country Elevator | 105 | 5.00 |
| Semi Public Terminal | 123 | 25.00 |
| Private Terminal | 123 | 25.00 |
| Eastern Elevator | 123 | 25.00 |
| Commission Merchant | 144 | 5.00 |
| Track Buyer | 148 | 5.00 |
| Grain Dealer | 153 | 5.00 |

Section 79(3) of the Act requires each applicant to furnish adequate security before a license is issued. These securities are in the form of guarantee bonds issued by national surety companies to the licensees. Negotiable securities amounting to \$2,000, held in lieu of guarantee bonds, were examined by us and found to be in order.

ACCOUNTS RECEIVABLE

There were \$204,093 in accounts receivable outstanding at March 31, 1961, of which \$940 remained unpaid at June 24, 1961. Of the unpaid balance, \$875 represented accounts of previous years, and is considered uncollectible.

PRAIRIE FARM ASSISTANCE ACT LEVY

The Prairie Farm Assistance Act, Chapter 213, R.S. 1952 provides for a levy of one per cent to be deducted from the purchase price of all grain bought by licensed purchasers of grain and remitted to the Board of Grain Commissioners for deposit to the credit of the Receiver General of Canada—Prairie farm Emergency Fund. The amount received and deposited by the Board during the year under review was \$6,727,398.

A copy of this report is being sent to the Minister of Agriculture and, in accordance with the usual practice, a copy is being sent to the Comptroller of the Treasury for publication in the Public Accounts.

My examination of the accounts was facilitated by the co-operation of the officers and employees of the Board, which is acknowledged with appreciation.

A. M. HENDERSON,
Auditor General of Canada.

Appendix 4

CANADIAN GOVERNMENT ELEVATORS

AUDITOR GENERAL OF CANADA

Ottawa, October 18, 1961.

THE CHAIRMAN AND MEMBERS,
BOARD OF GRAIN COMMISSIONERS FOR CANADA,
WINNIPEG, MANITOBA.

I have examined the accounts and financial transactions of the Canadian Government Elevators for the year ended March 31, 1961, and certified financial statements are attached.

The Canadian Government Elevators are operated by the Board of Grain Commissioners for Canada under the provisions of section 166 of the Canada Grain Act and Order in Council P.C. 1372 of August 19, 1925. These include five interior terminal elevators located at Moose Jaw, Saskatoon, Calgary, Edmonton and Lethbridge and a terminal elevator at Prince Rupert together with a terminal elevator at Port Arthur which is under lease to McCabe Grain Company Limited.

For accounting and financial control purposes, the Canadian Government Elevators operate in the same manner as a government department—gross expenditures are provided by Parliamentary appropriations and gross revenues are deposited in the Consolidated Revenue Fund. The Elevators' expenditures and revenues are, therefore, included in the expenditures and revenues of Canada, which are certified by the Auditor General.

In view of the fact that funds for the acquisition of capital assets are provided by Parliamentary appropriation, it has not been the practice of the Elevators' Management to make any provision for depreciation or obsolescence of its plant and equipment in its costs of operation.

A copy of this report is being sent to the Minister of Agriculture and, in accordance with the usual practice, a copy is being sent to the Comptroller of the Treasury for publication in the Public Accounts.

OPERATING STATEMENT

The following is a comparative summary of the results of operations for the fiscal years 1960-61 and 1959-60:

| | 1960-61 | 1959-60 |
|--|-------------------|-------------------|
| Revenue: | | |
| Operating revenue | 1,984,044 | 1,947,464 |
| Profit or (loss) on sale of surplus grain | 13,463 | (4,931) |
| Miscellaneous revenue | 23,787 | 14,025 |
| | <u>2,021,294</u> | <u>1,956,558</u> |
| Expenditure | 1,516,494 | 1,552,579 |
| Net profit for the year, without providing for depreciation on plant and equipment.. | <u>\$ 504,800</u> | <u>\$ 403,979</u> |

OPERATING REVENUE—\$1,984,044

15,565,927 bushels of grain were received during the year under review, an increase of 1.8% over the 15,296,228 bushels received the previous year. Increases in the amount of grain received at the Saskatoon, Calgary, Edmonton and Lethbridge elevators were offset by decreases in the amount received at Moose Jaw and Prince Rupert.

The following summary shows an analysis of the differences in operating revenues earned in the past two years:

| | 1960-61 | 1959-60 | Increase (Decrease) |
|----------------------------|---------------------|---------------------|------------------------|
| Storage | 1,255,767 | 1,195,931 | 59,836 |
| Elevation | 295,172 | 309,610 | (14,438) |
| Drying | 104,530 | 229,245 | (124,715) |
| Cleaning | 183,976 | 100,697 | 83,279 |
| Elevator rental | 85,194 | 83,425 | 1,769 |
| Screenings | 59,296 | 28,497 | 30,799 |
| Chopping and sacking | 109 | 59 | 50 |
| | <u>\$ 1,984,044</u> | <u>\$ 1,947,464</u> | <u>\$ 36,580</u> |

CANADIAN GOVERNMENT ELEVATORS—*Continued*

The decrease in drying revenue is attributable to the fact that 1959-60 was a very wet year, consequently drying revenue was unusually high. Comparable figures for the years 1958-59 and 1957-58 were \$60,893 and \$54,780, respectively.

PROFIT ON SALE OF SURPLUS GRAIN—\$13,463

An official weighover of stock of grain in store was made at all of the Canadian Government Elevators during the year under review. Sale of surplus grain revealed by the weighovers resulted in a net gain of \$13,463.

MISCELLANEOUS REVENUE—\$23,787

The increase in miscellaneous revenue of \$14,025 over last year's figure is largely attributable to over-time charges for loading and for handling rapeseed billed to customers by the Elevators in the amount of \$9,122, and to charges for lining freight cars for the shipment of rapeseed from Saskatoon and Edmonton in the amount of \$2,700.

EXPENDITURE—\$1,516,494

Funds for the expenditures of the Canadian Government Elevators during the year ended March 31, 1961 were provided by Parliamentary Appropriations 398 and 399 with results as follows:

| | <u>Appropriations</u> | <u>Voted</u> | <u>Expended</u> | <u>Lapsed</u> |
|---|-----------------------|---------------------|---------------------|-------------------|
| 398 Operation and Maintenance | | 1,562,686 | 1,547,523 | 15,163 |
| 399 Construction or Acquisition of Buildings, Works, Land and Equipment | | 142,000 | 24,814 | 117,186 |
| | | <u>\$ 1,704,686</u> | <u>\$ 1,572,337</u> | <u>\$ 132,349</u> |

The expenditure of \$1,572,337 for the year is compared with \$1,606,837 for the year ended March 31, 1960, as follows:

| | <u>1960-61</u> | <u>1959-60</u> |
|---|---------------------|---------------------|
| Operating expenditures including replacement of worn-out plant and equipment .. | 1,516,495 | 1,552,579 |
| Additions to plant and equipment | 19,934 | 39,560 |
| Purchase of grain | 2,017 | 5,422 |
| Purchase of screenings | 17,533 | 3,704 |
| Increase in inventories of stores and small equipment and tools | 16,358 | 5,572 |
| | <u>\$ 1,572,337</u> | <u>\$ 1,606,837</u> |

It is suggested that consideration be given providing an annual charge, on a memorandum basis, for amortization of building and equipment acquisition costs. Such a procedure would, among other advantages, enable the financial statements to be prepared in such a manner as to allow for comparison with commercial operations of a nature similar to that of the Elevators, both on a yearly and a monthly basis. Reference is made in this connection to paragraphs 146 and 148 of my annual report to the House of Commons for the fiscal year ended March 31, 1960, and to paragraph 87 of the fifth report, 1961, of the Standing Committee on Public Accounts.

NET PROFIT FOR THE YEAR—\$504,800

During the year under review, the revenues of the several elevators constituting the Canadian Government Elevators exceeded the expenditures, exclusive of any charge for depreciation of plant and equipment, by \$504,800. This is compared with an excess of revenue over expenditure of \$403,979 in the immediately preceding year. The following tabulation summarizes the net profit or (loss) of each elevator during the past two years:

| | <u>1960-61</u> | <u>1959-60</u> |

CANADIAN GOVERNMENT ELEVATORS—*Continued*

It is noted that the loss at the Lethbridge elevator was the sixteenth consecutive year in which the earnings of this elevator failed to cover the cost of operation. The accumulated deficits in those years amounted to \$566,412 without taking into account any depreciation on plant and equipment. During the same period \$43,332 was expended on additional equipment at this elevator.

Balance Sheet**ACCOUNTS RECEIVABLE—\$154,805**

The accounts receivable at March 31, 1961 comprised \$77,526 freight advances and \$77,279 sundry receivables. Freight advances, which are used to pay freight charges, weighing and inspection fees, etc., and which are recovered from owners of the grain, are authorized under section 166(3) of the Canada Grain Act. Sundry accounts receivable include charges for storage, elevation, etc., which were due but unpaid at March 31, 1961. All outstanding accounts at that date were collected in April and May, 1961.

ACCRUED REVENUE—\$585,635

This amount represents charges for storage and elevation of grain which have accrued with respect to grain still in store at March 31, 1961, as evidenced by outstanding warehouse receipts certified by the Registrar of the Board of Grain Commissioners.

INVENTORIES—\$251,361

Physical inventory of stores and of small tools and equipment was taken by the Superintendents of the various elevators at the fiscal year-end, and valued at cost. The screenings on hand, as reported by the Superintendents, and the surplus grain on hand and covered by warehouse receipts, are valued at market prices at March 31, 1961.

FIXED ASSETS—\$12,183,281

This amount represents the original cost of the property, plant, equipment and furniture of the Elevators.

Expenditure on this account during the year amounted to \$20,110, of which \$19,285 was for a ship-loading spout at the Port Arthur elevator.

GRAIN SHORTAGES—\$18,759

This amount represents the liability of the Elevators for shortages discovered at the weighover. Warehouse receipts were purchased and cancelled during the month of April, 1961 covering all of this shortage except 66.6 bushels of special bin wheat and 1107.2 bushels of special bin barley. Permission has been granted by the Board of Grain Commissioners to defer the purchase of these shortages until the stocks have been shipped, in the event that further adjustment is required at that time.

ACCOUNTS PAYABLE—\$7,996

Invoices for inspection and weighing charges to the Canadian Government Elevators for the month of March 1961, in the amount of \$7,996 were not received by the Elevators until May 1, 1961. Accordingly, these accounts, which are paid out of advances for working capital and subsequently recovered from the Elevators' customers, were recorded as a liability at March 31, 1961 and paid early in May.

GOVERNMENT OF CANADA—ADVANCES FOR WORKING CAPITAL—\$69,530

This is the amount advanced at March 31, 1961 in accordance with the provisions of section 166(3) of the Canada Grain Act to meet freight, weighing and inspection charges on grain shipped to, or discharged from, Government elevators. These charges were included in accounts receivable, and were recovered from the owners of the grain in April and May, 1961.

PROPRIETARY EQUITY REPRESENTED BY FIXED ASSETS ACQUIRED OUT OF FUNDS PROVIDED THROUGH PARLIAMENTARY APPROPRIATIONS—\$12,183,281

The proprietary equity increased during the year by \$20,110 due to the expenditure of this amount on equipment, as noted under the comment "Fixed Assets".

SURPLUS ACCOUNT—\$895,516

The net profit for the year under review, without providing for depreciation of plant and equipment, amounted to \$504,800. During the same period cash receipts deposited to the credit of the Receiver General of Canada in the Consolidated Revenue Fund exceeded expenditures charged to the Consolidated Revenue Fund by \$453,302. As a result, there is an increase of \$51,498 in the balance of Surplus Account at March 31, 1961 as compared with the balance at March 31, 1960.

CANADIAN GOVERNMENT ELEVATORS—*Continued*

The Surplus Account balance of \$895,516 represents assets not yet turned into cash less unpaid liabilities as follows:

| | |

| Accrued revenues | 585,635 |
| Inventories | 251,361 |

| Less: Unpaid grain shortages | 18,759 |
| | <hr/> |

Since the inception of the Canadian Government Elevators in 1913, there has been an accumulated surplus of revenues over expenditures—without providing for depreciation of plant and equipment—of \$16,840,714 applicable to the individual elevators as follows:

| | |
|---------------------|--------------|

The co-operation of the officers and employees of the Elevators during the course of the examination is acknowledged with appreciation.

CERTIFICATE

I have examined the accounts of the Canadian Government Elevators for the year ended March 31, 1961, and have obtained all the information and explanations I have required. My examination was made in accordance with generally accepted auditing standards and included a general review of the accounting procedures and the system of internal control together with such tests of the accounting records and other supporting evidence as were considered necessary in the circumstances. In my opinion, and subject to the foregoing comments in respect of the provision for depreciation on plant and equipment, the attached Balance Sheet gives a true and fair view of the state of the Elevators' affairs at March 31, 1961, and the related Operating Statement gives a true and fair view of its operations for the year then ended, according to the best of my information, the explanation given to me, and as shown by the books of the Elevators.

Auditor General of Canada.

CANADIAN BROADCASTING CORPORATION

The following statements of expenditures and revenues for the Canadian Broadcasting Corporation are only in respect of moneys appropriated by Parliament. The financial statements of the Corporation for the year ended March 31, 1961 are shown in Volume III of this report. As the Department of Transport is responsible for the collection of licence fees in respect of sound broadcasting and television, an account relating to funds derived from that source by the Corporation will be found under the schedule, Deposit and Trust Accounts, in Volume I of this report.

| | |
|--|--------------------------|
| Vote 41 Grant in respect of the net operating requirements of the radio and television services | 62,085,000 |
| Expenditures | (20) \$59,288,476 |

The variation of \$2,796,524 was due principally to an increase in commercial revenue over the estimate.

| | |
|---|--------------------------|
| Vote 42 Grant for the capital requirements, including the replacement of existing capital assets, of the radio and television services | 7,647,000 |
| Expenditures | (20) \$ 5,583,828 |

The variation of \$2,063,172 indicates that the expenditure was 75% of the appropriation. The amount under-expended represents delays in the completion to payment stage of various projects which were fully engineered and delays in implementation of other projects included in the appropriation occasioned by circumstances outside the control of the Corporation.

INTERNATIONAL SHORTWAVE BROADCASTING SERVICE

NOTE.—All payments from votes provided for the above Service were made to the Canadian Broadcasting Corporation and comprised reimbursement for expenditures made in connection with the Service, plus supervision charges of 5 per cent, as authorized by P.C. 4/5612, November 4, 1949.

Vote 43 Maintenance and operation including authority to credit to this appropriation revenue from the rental of facilities in the Radio-Canada building and at Sackville, N.B., to an amount of \$331,500 and to spend these moneys for the purposes of the International Service

In all cases where capital assistance was given, the titles to the land, buildings, machinery and equipment were vested in the Crown.

The following were in connection with the acquisition of land, strengthening overlay and extension of runway at Cartierville airport including re-routing to Bois-Franc Road at Cartierville airport—

Contract: Highway Paving Co. Ltd., \$700,000; expenditures, \$385,156, including holdbacks, \$14,516.

Acquisition of land: Avram Goldstein, Montreal, \$24,827; Avram Goldstein and A. Sieben, Montreal, \$280,000; Avram Goldstein, A. Sieben and E. Jasmin in Trust, Montreal, \$25,000; Avram Goldstein, A. Sieben and Swiss Credit Bank in Trust, Montreal, \$125,000; G. Mariana and A. D. Galardo, Montreal, \$210,000.

Appraisal fees: Jean Beique, Montreal, \$900; R. A. Patterson, Montreal, \$600; Sullivan Realities Co., Montreal, \$6,471.

Orenda Engines Ltd. received \$5,830 on a 1956-57 contract amounting to \$5,427,263 for construction of test facilities for the P.S. 13 gas turbine engine development program at Malton, Ont. Expenditures to date were \$5,427,263 (final).

The total unexpended balance of \$1,194,693 arose in the following circumstances:

- | | |
|--|---------|
| (a) Capital assistance—Construction, etc. | 671,911 |
| This under-expenditure mainly relates to the project for extension of the Cartierville airport and represents a deferment of expenditure into 1961-62. This was caused by the protracted nature of negotiations for the purchase of land; also delays in the progress of outside work on runway construction due to winter conditions. | |
| (b) Capital assistance—Equipment | 64,078 |
| Mainly expenditures that were deferred pending investigations into alternative proposals. | |
| (c) Production capacity | 458,704 |
| Expenditures against the production sharing section of the vote are contingent on how successful Canadian companies are in outbidding United States and other foreign firms in a highly competitive market. Where Canadian contractors were unsuccessful, there was no call for assistance. | |

\$ 1,194,693

| Expenditures | (22) \$ 3,030,414 |

The forecast of \$3.6 million made provision for the staffing of a number of sites within the CADIN (Continental Air Defence Integration North) program throughout the fall and winter of 1960-61. However, requests for tender-call for this program were not received by Defence Construction (1951) Limited as early as anticipated and many sites where construction was to take place in 1960-61 did not become active until the spring and summer of 1961. The resultant decrease in the company's forecast requirement for supervisory staff is reflected in the unspent balance of \$595,703 remaining in the vote.

The accounts of the company are audited by the Auditor General of Canada and the Balance Sheet as at March 31, 1961, as certified by him, together with supporting schedules, will be found in Volume III of this report.

This vote was provided for the expenses of administering The Tariff Board Act, under which, on the direction of the Minister of Finance, the Tariff Board makes inquiry into any matter in respect of which the Minister desires information or advice—more particularly such matters as relate to the operation of the Customs Tariff in so far as the latter has to do with the tariff treatment of goods made or produced in Canada or imported into Canada. The Board also is empowered under the Act to inquire into any matter "in relation to the trade or commerce of Canada that the Governor in Council sees fit to refer to the Board for inquiry and report" and to act as a court to hear and declare decisions on appeals from rulings of the Deputy Minister of National Revenue under provisions of the Customs Act and the Excise Tax Act.

TAX-SHARING, SUBSIDY AND OTHER PAYMENTS TO PROVINCES

Subsidies to Provinces

Subsidies to provinces (British North America Acts, 1867 to 1952 and other statutory authority)

(24) \$20,688,987

Details will be found in Appendix 5 to this section of the report.

Special Payments to Provinces

Payments to provinces as provided under the Federal-Provincial Tax-Sharing Arrangements Act, c. 29, 1956, as amended

(24) \$ 504,899,735

Under the provisions of the Federal-Provincial Tax-Sharing Arrangements Act, 1956, the Minister of Finance was authorized, where applicable, to pay to each province a tax equalization payment, a provincial revenue stabilization payment, and a tax rental payment. Receipt of a tax rental payment was conditional upon a province entering into an agreement with Canada to refrain on its own part and that of its municipalities from the levying of one or more of the following taxes: individual income, corporation income, and succession duties. All provinces except Quebec entered into such an agreement, although the agreement with Ontario was limited to the individual income tax field. Equalization and stabilization payments are payable to a province whether it has or has not entered into a tax rental agreement.

Vote 115 Payments to the Government of each province, in respect of income tax collected from corporations whose main business is the distribution to or generation for distribution to the public of electrical energy, gas or steam, of amounts computed in accordance with section 6 of The Tax Rental Agreements Act, 1952, as if the last two lines of subsection (1) of that section read as follows: "... ending on the thirty-first day of December, one thousand nine hundred and fifty-eight"

9,000,000

Expenditure

(24) \$ 4,226,151

The variation was occasioned by three factors; an unforeseen decline in the taxable incomes of the relevant corporations due in the main to the application by some of the larger corporations of the diminishing balance principle to capital cost allowances; an increased deduction in some provinces for increased provincial taxes and royalties; and the necessary adjustment because of amounts already paid as rental under the Federal-Provincial Tax-Sharing Arrangements Act.

A distribution by provinces of the payments under each of the three preceding authorities is given in the tabular statement below.

| Additional grant to Newfoundland, Newfoundland Additional Grants Act, c. 48, 1959 | 7,650,000 |
| | (24) \$ 8,000,000 |

Term 28 of the schedule of the first Act above provided for payment to the Province of Newfoundland each year during the first twelve years after the date of Union of a transitional grant in order to facilitate the adjustment of Newfoundland to the status of a province of Canada and the development by the province of revenue-producing services. Payment of each year's grant is to be made in equal quarterly instalments commencing on the first day of April.

Term 29 of the Terms of Union of Newfoundland with Canada provided that the Government of Canada would appoint a Royal Commission within eight years from the date of Union to review the financial position of the Province of Newfoundland and to recommend the form and scale of additional assistance, if any, that might be required by the Government of the Province of Newfoundland to enable it to continue public services at the levels and standards reached subsequent to the date of Union, without resorting to taxation more burdensome, having regard to capacity to pay, than that obtaining generally in the Maritime provinces. The Royal Commission reported on May 31, 1958, and recommended additional grants to Newfoundland. Grants are payable for the years 1957-58 to 1961-62 inclusive.

UNIVERSITY GRANTS

Payments to the Canadian Universities Foundation for the purpose of making grants to institutions of higher learning, the Federal-Provincial Tax-Sharing Arrangements Act, c. 29, 1956, as amended (24) \$19,008,000

The above Act as amended by c. 13, 1960 authorized the Minister of Finance, with the approval of the Governor in Council, to enter into an agreement with the Canadian Universities Foundation, providing, for any fiscal year commencing on or after the first day of April, 1960, for payment of amounts to the foundation for the purpose of making grants to institutions of higher learning in any province.

Section 9A of the amending statute authorized the Minister of Finance, for the purpose of grants to institutions of higher learning, to pay to the Canadian Universities Foundation an amount equivalent to one dollar and fifty cents multiplied by the population of each province that was not prescribed. The Foundation distributed the amount according to the terms and conditions of an agreement entered into between the Government of Canada and the Foundation. The Minister of Finance was empowered by the Act to declare a province a prescribed province where in his opinion satisfactory arrangements exist for the payment by the province

directly to institutions of higher learning in the province of an amount which is equal or greater than one dollar and fifty cents multiplied by the province's population and where the payment is made on terms and conditions not inconsistent with those contained in the agreement between the Government of Canada and the Canadian Universities Foundation. A prescribed province is entitled to an abatement of one per cent of the corporation income tax. If the value of the abatement exceeds the amount of one dollar and fifty cents multiplied by the population of the province, the amount of the excess is deducted from any payment made to the province under the Federal-Provincial Tax-Sharing Arrangements Act; if the value of the abatement is less than one dollar and fifty cents per capita, an amount is paid to the province which together with the value of the abatement will equal one dollar and fifty cents per capita. For the fiscal year commencing April 1, 1960, Quebec was declared a prescribed province by P.C. 1960-1435. The value of the one per cent corporation income tax abatement to Quebec was estimated at \$8,405,000, the university grants at one dollar and fifty cents per capita at \$7,659,000, and a recovery of \$746,000 was made from the tax equalization payment payable to Quebec under the Federal-Provincial Tax-Sharing Arrangements Act.

University grants were previously paid to the National Conference of Canadian Universities.

Appendix 1

EXCHANGE FUND ACCOUNT

AUDITOR GENERAL OF CANADA

Ottawa, March 30, 1961.

THE HONOURABLE DONALD M. FLEMING,
MINISTER OF FINANCE,
OTTAWA.

Sir,

In accordance with the requirement of Section 27(2) of the Currency, Mint and Exchange Fund Act, an audit has been made of the Exchange Fund Account for the year ended December 31, 1960.

The attached certified statement gives a summary of the Account for the year and the composition of the balance of the Account as at December 31, 1960, together with comparable figures for the previous year.

The Exchange Fund Account was first established by the Exchange Fund Act (1935 Chap. 60). It was continued by the Foreign Exchange Control Act (1946 Chap. 53) and further continued by the Currency, Mint and Exchange Fund Act (Chap. 315 R.S.). The purpose of the Exchange Fund Account, from its inception, has been "to aid in the control and protection of the external value of the Canadian monetary unit".

It will be noted from the attached statement that the deficit resulting from the sale and revaluation of the holdings of the Exchange Fund Account amounted to \$140,977,155 at December 31, 1960, which compares with the deficit included in the Account at December 31, 1959, as follows:

| | December 31, 1959 | December 31, 1960 | Decrease |
|---|-----------------------|-----------------------|----------------------|
| Net loss on dealings in gold and foreign currencies and securities and on revaluations of gold and foreign currencies, since establishment of the Exchange Fund Account in 1935 | 136,349,402 | 134,809,095 | 1,540,307 |
| Exchange loss arising from valuation of United States dollar holdings at the exchange rate of \$0.99-21/32 at December 31, 1960 (\$0.95-7/32 at December 31, 1959) | 87,646,916 | 6,168,060 | 81,478,856 |
| | <u>\$ 223,996,318</u> | <u>\$ 140,977,155</u> | <u>\$ 83,019,163</u> |

The amount of \$134,809,095 shown in the above comparative statement represents a cost of exchange management over the period since the establishment of the Account, while the amount of \$6,168,060 is the exchange difference due to the United States dollar being at a discount of 11/32 of 1% at December 31, 1960.

Reference was made to the Exchange Fund Account deficit in paragraphs 89 and 106 of my report to the House of Commons for the year ended March 31, 1960.

Yours faithfully,

A. M. HENDERSON,
Auditor General.

FISHERIES RESEARCH BOARD OF CANADA

The Fisheries Research Board of Canada, replacing the Biological Board of Canada, was established by the Fisheries Research Board Act, c. 121, R.S., as amended, to have charge of all Federal fishery research stations in Canada and to conduct and have the control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

The research work conducted by the Board includes all phases of the biology of fish stocks—including their reproduction, growth, enemies, behaviour and catchability; it also investigates the physics and chemistry of oceans and lakes as they affect fish production, methods and apparatus for catching fish and other valuable marine organisms, and the handling, processing, chemical composition, nutritive value and utilization of all fishery products.

The Board consists of a chairman and not more than eighteen other members. A majority of the members of the Board, not including the chairman, shall be scientists and the remaining members of the Board shall be representative of the Department and the fishing industry. As at March 31, 1961 the Board was comprised of the chairman, 8 scientific members, 5 members representing the fishing industry and 1 representing the Department.

Section 14 of the Act provides that the Board may expend such sums as are necessary for its work from moneys appropriated by Parliament, or from funds received through bequests, donations, the sale of natural history specimens, or from any other source.

B—UNEMPLOYMENT INSURANCE COMMISSION

The Unemployment Insurance Act, c. 50, 1955, as amended, has a two-fold purpose, namely, the payment of Unemployment Insurance benefits to insured workers involuntarily unemployed, and the creation of a national employment service to assist employees and employers in the solution of their employment problems. In addition, the Act provides for the establishment of a special account in the Consolidated Revenue Fund to be known as the Unemployment Insurance fund—see Unemployment Insurance Commission under the schedule, Annuity, Insurance and Pension Accounts, in Volume I of this report. Also see the appendix to this section for the balance sheet of the Unemployment Insurance fund as at March 31, 1961, and the statement of revenue and expenditure for the year ended March 31, 1961. The moneys credited to this fund are derived from contributions made by employed persons, employers of such persons and the Government of Canada and are to be utilized only for the payment of unemployment insurance benefits and any other payments permissible under the Act.

GENERAL

Payments under the Emergency Gold Mining Assistance Act, c. 95, R.S., as amended (20) \$12,116,281

In order to prevent the closing of mines due to increasing cost of equipment, supplies and labour, and thus avoid the resultant hardships on dependent communities, the above Act was passed on May 14, 1948, with payment effective for a period of three years from January 1, 1948. Later amendments to the Act extended the application thereof to the end of 1963.

The amount of assistance payable to the operator of a gold mine under the provisions of the Emergency Gold Mining Assistance Act is calculated by a formula consisting of two factors: the "rate of assistance" which is based on the cost per ounce of gold produced from the mine, and the "assistance ounces" which are a specified proportion of the total ounces of gold produced. Under the formula prescribed for the years 1955, 1956, and 1957, the rate of assistance factor was determined by taking two-thirds of the amount by which the cost per ounce exceeded \$26.50, with a maximum rate of \$12.33 per ounce. The number of assistance ounces was two-thirds of the total gold produced and sold to the Royal Canadian Mint. The amount of assistance payable for the years 1955 to 1957 was the amount obtained by multiplying the rate of assistance by the number of assistance ounces. By an amendment to the act in 1958 the amount of assistance payable to an operator for 1958 and subsequent years is computed by adding twenty-five per cent to the amount obtained by application of the formula. Assistance is restricted to the mines from which the value of gold produced is not less than seventy per cent of the value of the total output of the mine.

Expenditures to date amounted to \$145,521,111, including the balance of \$1,354,288 in Emergency Gold Mining Assistance Holdbacks (see under the schedule, Deposit and Trust Accounts, in Volume I of this report) to provide for payment of holdbacks after final audit.

The following statement shows the payments to mine operators in the current fiscal year and total assistance to March 31, 1961, under the above statutory authority.

| | <u>\$74,259,000</u> | <u>\$74,259,000</u> | <u>\$48,221,425</u> |

The variation between the appropriation and the total of expenditures charged thereto is due mainly to the following: major procurement of equipment, (i) ships—retarded deliveries of machinery items and savings due to revised contractual arrangements which resulted in a significant decrease in labour expenditure in the destroyer escort program and program delays in construction of a tanker supply ship, (ii) armament equipment—deferment of delivery dates of 3"/70 calibre guns and mountings, and delays in the final stages of development of an improved type of anti-submarine torpedo, (iii) electronic and communications equipment—technical difficulties in completion of development prior to production, delays in negotiation of contracts, a change from advance payments to payment on delivery and reduction in the requirement of sonobuoys, (iv) ammunition and bombs—manufacturing difficulties in the production of certain types of ammunition and fuses.

The variation between the appropriation and the total of expenditures charged thereto is due mainly to: (i) a reduction in flying activity particularly with respect to the CF100 aircraft due to the imminent disbandment of four CF100 squadrons scheduled for 1961-62. Specifically this resulted in substantial reductions in the requirement for repair, overhaul, modification, provision of spare parts and consumption of fuel and lubricants for these aircraft; (ii) reductions in expenditure for special training courses which in some cases, though budgeted for, were actually provided free. In other cases the scheduled courses were delayed; (iii) economies in the operating costs of the Mid-Canada Line under the civilian maintenance management contract.

Educational leave was granted to the following employees for the periods shown, under authority of P.C. 8/3600, August 13, 1948: at full pay—W. Thumm (Apr. 1 to May 31); at half pay—P. E. Girard (Sept. 1 to Mar. 31); without pay—J. R. Atkin (Apr. 1 to June 1).

Vote 232 Grants to the town of Oromocto, subject to the approval of Treasury Board, for municipal services including the maintenance and operation of schools and to promote the development of the Town

Expenditures (20) \$ 1,600,000

Vote 233 Grants to provinces and municipalities for Civil Defence and related purposes (formerly provided under Department of National Health and Welfare —comparable amount in 1959-60, \$2,000,000)

Expenditures (20) \$ 2,245,354

T.B. 550237, July 21, 1959, as amended by T.B. 558298 December 30, 1959, prescribed terms and conditions under which grants are available to provinces and municipalities for general civil defence purposes.

The authority provides that the province may submit and recommend a project within the following classifications:

- (i) organization, administration and training expenditures, including training exercises;
- (ii) equipment and clothing, including uniforms, required for administration, training and operations, for which there is normally no peacetime use other than for civil defence;
- (iii) construction and alterations for civil defence purposes; and
- (iv) operational equipment having a peacetime use.

Generally, the province must undertake to: (a) furnish a detailed statement of the cost of the project and the proportion thereof to be provided from provincial or municipal funds, (b) furnish to the Minister from time to time as he may require, reports covering the development of the projects, and (c) maintain adequate records and accounts and afford the Minister every facility for inspection thereof. Payment (within the amount available to a province) is based upon a statement of the actual expenditures during the fiscal year and amounts to: (a) in the case of projects classified as (i), (ii) and (iii) above, an amount not exceeding 25 cents per capita, or 75 per cent of total expenditures on the project, whichever is the lesser, and (b) in the case of a project classified as (iv) above, an amount equal to the amount actually expended by the province. Provision is made for payment in some cases to a municipal civil defence organization rather than to the province.

A statement by provinces follows:

| Province | Maximum entitlement | Approved projects | Expenditures |
|----------------------------|------------------------|----------------------|---------------------|
| Newfoundland | 100,000 | 59,475 | 46,152 |
| Nova Scotia | 181,910 | 181,910 | 150,429 |
| Prince Edward Island | 25,000 | 24,000 | 14,114 |
| New Brunswick | 137,500 | 122,119 | 93,361 |
| Quebec | 790,850 | | |
| Ontario | 1,350,000 | 1,173,229 | 797,705 |
| Manitoba | 212,500 | 151,592 | 124,436 |
| Saskatchewan | 225,000 | 163,776 | 131,592 |
| Alberta | 440,830 | 433,873 | 405,050 |
| British Columbia | 536,410 | 482,515 | 482,515 |
| | \$ 4,000,000 | \$ 2,792,489 | \$ 2,245,354 |

Variation between the appropriation and the total expenditures charged thereto resulted from: (a) non-participation of the Province of Quebec; (b) with the exception of the Provinces of British Columbia and Alberta, the other seven provinces not taking full advantage of their respective interim quotas as a result of either (i) the inability to liquidate commitments and claim from the federal government prior to April 30, 1961, (ii) inaccuracies in estimating expenditures at both the provincial and municipal level or (iii) some provinces not being sufficiently well organized and/or advanced to take full advantage of this program.

AUDITOR GENERAL OF CANADA

Ottawa, June 29, 1961.

THE CHAIRMAN AND MEMBERS,
NATIONAL FILM BOARD,
OTTAWA.

We have examined the Balance Sheet of the National Film Board as at March 31, 1961 and the Statement of Income and Expense for the year ended on that date and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

The Statement of Income and Expense for the year does not include any charges for amortization of building construction costs and office furniture and furnishings, or maintenance and other services provided by other government departments.

Subject to the foregoing, we report that, in our opinion, the accompanying Balance Sheet and Statement of Income and Expense are properly drawn up so as to exhibit a true and correct view of the state of affairs of the Board at March 31, 1961 and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

A. M. HENDERSON,
Auditor General of Canada.

NATIONAL GALLERY OF CANADA—Concluded

Ottawa, August 18, 1961.

Madam:

The accounts and financial transactions of the National Gallery of Canada have been examined for the year ended March 31, 1961, pursuant to section 9 of the National Gallery Act.

The following financial statements for the year are attached hereto:

| | | |
|------------|---|-------------|
| 00 000 001 | Statement of Expenditure | Exhibit I |
| | Summary of Purchase Account Transactions | Exhibit II |
| | Summary of Special Operating Account Transactions | Exhibit III |

Exhibit I combines the expenditures paid out of the Parliamentary appropriation for the administration, operation and maintenance of the Gallery, with expenditures paid out of the National Gallery Purchase Account and the National Gallery Special Operating Account, but does not include expenditures for the fiscal year of \$79,945.12 relating to the activities of the National Industrial Design Council, supervision and control of which was transferred from the Department of Citizenship and Immigration to the Department of Trade and Commerce pursuant to Order in Council P.C. 1960-1698 of 14 December 1960. Expenditures relating to the activities of the Council for its 1959-60 fiscal year, totalling \$72,334.00, have likewise been excluded from Exhibit I in order to provide comparable figures for the two fiscal years.

The balances at the credit of the Purchase Account and the Special Operating Account at March 31, 1961, are shown in Exhibits II and III at \$10,725.31 and \$77,145.82, respectively. These funds are available for expenditure by the Gallery in the financial period commencing April 1, 1961.

In my opinion, the attached financial statements are properly drawn up so as to exhibit true and fair summaries of the expenditures of the Gallery and of the transactions in the Purchase and Special Operating Accounts for the year ended March 31, 1961, according to the best of my information and the explanations given to me and as shown by the books of the Gallery.

Yours faithfully,

A. M. HENDERSON,
Auditor General.

THE HONOURABLE ELLEN L. FAIRCLOUGH,
MINISTER OF CITIZENSHIP AND IMMIGRATION,
OTTAWA.

These grants were established in 1948-49 as a step in the development of adequate health services for the people of Canada. Grants are available to the provinces upon terms and conditions approved by the Governor in Council and upon certification by the Minister that a province has agreed thereto. General conditions which apply to all grants are that projects may be submitted as part of a satisfactory provincial plan or program for the development of the relevant health service, and that the province undertakes to (a) expend the moneys received out of its share of the grant for the development of the approved plan or program; (b) furnish from time to time, reports and statements of expenditure to the Minister covering the development of the plan or program; (c) refund unexpended moneys on completion of any project or at the end of the fiscal year, whichever is earlier; and (d) maintain adequate records and accounts. Payment of grants is based on the submission of audited claims for reimbursement of expenditures made by provincial governments. Payments in the 1960-61 fiscal year were made under the Health Grant Rules authorized by P.C. 1960-18/257, March, 3 1960.

The grants were re-arranged in 1960-61 to conform with the situation which exists presently as a result of the introduction of hospital insurance and, as the results of gradual shifts in emphasis which have developed since the introduction of the program in 1948. The re-arrangement involved:

- (a) The discontinuance of the Laboratory and Radiological Services Grant and the Venereal Disease Control Grant, projects hitherto supported under these grants being absorbed in the General Public Health Grant. As a compensatory measure the basis of the General Public Health Grant was increased from 50 cents to 80 cents per capita of the population of Canada.
- (b) The merging of the Medical Rehabilitation Grant and the Crippled Children Grant into a single grant to be known as the Medical Rehabilitation and Crippled Children Grant with an increase in the joint account of the said grants from \$1,516,300 to \$2,625,000. The new grant is distributed on the basis of \$10,000 to each province and the balance according to population.
- (c) The reduction of the Tuberculosis Control Grant from \$4,226,000 to \$3,500,000.
- (d) The reduction of the Child and Maternal Health Grant from \$2,000,000 to \$1,750,000.
- (e) The reduction of the Cancer Control Grant from \$3,592,600 to \$3,500,000. A basic amount of \$10,000 per province was introduced in order to provide the smaller provinces with means to strengthen their fundamental establishment.
- (f) The increase of the Mental Health Grant from \$7,218,516 to \$8,765,391.
- (g) The increase of the Professional Training Grant from \$516,300 to \$1,737,669.
- (h) The increase of the Public Health Research Grant, not distributed specifically by province, from \$512,900 to \$1,744,200.

A *Hospital Construction Grant*. This grant is to assist the province to provide adequate accommodation for hospitals and health services, living quarters for nurses and internes, and hospital training facilities by grants of \$2,000 per bed equivalent for hospitals and health services and \$750 per bed for living quarters for nurses and internes. It also provides assistance for major renovations of existing facilities. Conditions of this grant require that construction or renovation projects be submitted in accordance with a provincial plan or program for the provision of adequate accommodation and that the province undertakes to contribute to the capital cost of the project an amount at least equal to the federal contribution, which in any case shall not exceed one-third of the total cost of construction.
